PORTLAND COMPANY HAS NO PROPERTY IN NEVADA

WARRANT DEED—The City of Portland and Portland Gold Mining Co., Colorado Springs, Colo.

This Deed, Made this 11th day of February, in the year of our Lord one thousand nine hundred and thirteen (1913), between Charles L. McKesson and

the County of Esmeralda and State of Colorado, of the first part, and
The Nevada Portland Gold Mining Company

Witnesseth, that the said party of the first part, for and in consideration of the sum of One Dollar to the said party of the second part, the receipt whereof is hereby confessed and acknowledged, has granted, bargained, sold, aliened, conveyed and confirmed unto the said party of the second part, its heirs and assigns forever, all that certain lot or parcel of land, situated, lying and being in the County of Esmeralda and State of Colorado, to-wit: Section 36, T. 36 N., R. 30 E., M. 2 B.,

"40 ACRES OF PATENTED LAND" STANDS IN M'KESSON'S NAME

Promoter, Now-Candidate for Mayor of Colorado Springs, Never Deeded Property to Company in Which He Sold Stock to Poor People

This paper was obliged to send to Nevada to check the facts, but they offer final proofs, if any were needed, of the veracity of McKesson in dealing with people who trusted him. There is a Nugent from the county treasurer of Mineral county (formerly Esmeralda county), Nevada, who was representing to the people as a mining claim.

But it now develops that this land is not owned by the Nevada Portland Gold Mining company, but has always stood in the name of C. L. McKesson personally. He got the property, but did not deed it to the company.

Abu has this 40 acres of land owned by McKesson has been sold for taxes.

Bear in mind what he said in his various advertisements: "This company owns patented property. It has the Tenderloin claims Nos. 1 and 2 and has just acquired the Gold King No. 1 and 2, making 80 acres of patented property in all."

And yet the tax records of Mineral county show that not a cent of ground, either patented or unpatented, is owned by a land company.

Of the case are that McKesson, having secured W. F. Fitch, went to Nevada and bought up what is known as the Tenderloin claim. It was owned by a man named J. B. Fitch, who had received title to it from the government in the '80s. But it was never classed as a mining claim, for as the paper says: "Mining claims as such are not assessed taxes in Nevada," and yet McKesson's 40 acres is classed as such for taxes.

Not only in order to give a genuine mining touch to this property, but also to designate it as Tenderloin Nos. 1 and 2. This is the history of the "going concern" that McKesson is talking about. It is without propriety 40 acres is still in McKesson's name, and the absurdity made in the Alum Creek district have long been jumped.

SUGAR SCHEDULE FIGHT ON TODAY

SHOE MACHINERY PUT ON FREE LIST

Protests Are Pouring in From All Sections of the Country

WASHINGTON, April 11.—Shoe machinery now taxed 18 per cent and on which a reduction to 10 per cent was proposed by the tariff revision bill, was ordered transferred to the free list today by the Democratic caucus of the house. It was the first break of the Democrats from the ways and means committee's rates, though earlier in the day the caucus had agreed to an amendment offered by Representative Palmer of Pennsylvania, a member of the committee, and in virtue of the metal schedule, under which lead, containing less than 1 per cent zinc, would be exempted from duty on the zinc contained in it.

The shoe machinery amendment proposed by Representative Bland of Missouri, and carried by a viva voce vote without substantial opposition from the members of the committee, followed a lively discussion in which Representative Olesby of New York, a new member, arraigned the so-called shoe machinery "trust" and pointed to the free list as an opportunity to let in competition.

Another development of the day was the agreement of Louisiana members on an antifree sugar program in the caucus, with Representative Broussard on guard to offer a series of amendments to the sugar schedule to represent the sentiment of the Louisiana cane sugar interests and the beet sugar sections.

Take Up Sugar Today.
The sugar schedule will be taken up tomorrow with an all-day fight in prospect. Representative Hardwick of Georgia and others are insisting upon immediate free sugar. The Broussard amendment will make the hundred weight rate on 99 degrees sugar from Cuba \$1.14 on passage of the bill, \$1.058 on June 30, 1916, and 97.26 cents on June 30, 1919, instead of (Continued on Page Two.)

CLEAR-CUT PROOF PROPERTY WAS DEEDED TO NEVADA PORTLAND COMPANY IN 1907

Documents of Formal Transfer at Gazette Office and May Be Examined by the Public;
Recorder Mineral County Telegraphs That Instrument Recorded in 1907
Deeds 40 Acres Land to Corporation; Warranty and Quit Claim
Documents in Favor Company Refute Campaign Attacks

Documentary evidence of the falsity of the charges of the Telegraph against City Attorney McKesson, candidate for mayor, with reference to the properties of the Nevada Portland Gold Mining company, is given above.

As conclusive and incontrovertible evidence that the statements of the Telegraph are false we print a photographic reproduction of a part of the first page of the Telegraph of last Thursday, and by its side in absolute contradiction of its charges, the photographic reproduction of the deeds by which Mr. McKesson transferred the property to the Nevada Portland Gold Mining company.

But one side of the deed is printed in the foregoing. On the other side the official seal of the county recorder shows that the deeds were properly recorded April 18, 1907. The deeds are now in the possession of The Gazette and may be examined by any person. Tomorrow The Gazette will print a photograph of the other side of the deeds showing the signature and filing certificate of the county recorder under the date mentioned.

The Telegraph falsely stated that "this land is not owned by the Nevada Portland Gold Mining company, but land to the company. They do not 'purport' to transfer, but they actually prove the transfer, because they are legal instruments properly recorded."

When the locations of the property were made Hawthorne was the county seat of Esmeralda county, Nevada. The county seat later was removed to Goldfield. Then Esmeralda county was divided and Mineral county created from a portion of it, and Hawthorne was made the county seat.

The property in consequence is recorded in the books of Esmeralda county, in which it was situated at the time the location was made, although it is now in the newly organized Mineral county.

Here is evidence which cannot be denied. Last Thursday Mr. McKesson sent the following message to the county recorder of Mineral county:

"Is there a deed on record conveying forty acres of land to the Nevada Portland Gold Mining company, filed in nineteen hundred seven? Wire quick."
C. L. M'KESSON.

Following is a copy of the reply received yesterday by Mr. McKesson:

"C. L. McKesson, Colorado Springs, Colo.
"Yes."
"S. T. KELSO, Recorder."

The messages reprinted above are copies from the files (Continued on Page Two)

HOUSE PROGRESSIVES OUTLINE LEGISLATION

Work Assigned to Committees to Expedite Proposed Program

WASHINGTON, April 11.—The Progressive conference of the house today assigned the work of preparing the measures that will form a part of the Progressive legislative plan. The house members will work in conjunction with the legislative committee of the national Progressive party, of which Gifford Pinchot, Miss Jane Addams, Dean Lewis of Pennsylvania university, Walter Weyl, and other prominent persons are members. Ten legislative subjects were assigned at today's conference. Bills on these subjects will be prepared after thorough investigation by the members and they will form the basis for the legislative campaign of the Progressives in this present congress. Following is the list of assignments: Tariff commission—Representative Murdock of Kansas. Conservation and development of Streams—Temple, Pennsylvania. Child-labor-law—Copley, Illinois. Woman's eight-hour law for District of Columbia—Nolan, California. Workmen's compensation—Rupley, Pennsylvania. Interstate trade commission—Laferty, Oregon. Commission of agricultural cooperation, credits and insurance—Hulings, Pennsylvania. Presidential preference primary—Hinebaugh, Illinois. Eastern method of amending federal constitution—Chandler, New York. Minimum wage for women—Falconer, Washington.

MILITANTS START RAIDS ON FIRE ALARM BOXES

LONDON, April 11.—The militant suffragettes started a fresh raid today by attacking the fire alarms in the London streets. They destroyed three. In each case a card bearing the words "Votes for Women" was attached to the damaged apparatus.

MEXICO BLAMES U.S. FOR TROUBLE

SHOULD HAVE LENT AID TO NEW REGIME?

Conditions Throughout the Republic Are Gradually Becoming Worse

MEXICO CITY, April 11.—That the withholding of official recognition of the United States materially has weakened the Huerta government, is the opinion generally expressed by the public and privately admitted in certain Mexican official circles. The new rebel movement has made greater progress than has the provisional government in suppressing insurgency, and it no longer is a secret that the condition of the treasury is such as will not permit the continuation of military operations much longer. This has been publicly admitted by the Mexican minister of the interior, Garcia Granados. The chamber of deputies has not approved the proposed foreign loan, but its failure to take up this matter is said to be due to a desire to avoid further embarrassing the finance department, which so far has been unable to arrange for flotation of the loan, notwithstanding recent assurances to that effect from London. It is assumed by the government that its inability to issue the loan is due directly to nonrecognition by Washington.

Place Responsibility on U. S.
Editorial writers comment upon this phase of the situation and there has begun a propaganda in the local press tending to place responsibility for the fate of Mexico on the United States. Further complicating the financial difficulties of the government is the steady increase in the exchange rate, which within a week has mounted from practically parity to 25, and that rate only is available to favored patrons. In an effort to check the up- (Continued on Page Four.)

DEADLOCK CERTAIN ON APPROPRIATION BILLS

Possibility of Extra Session Becomes Stronger Each Succeding Day

By R. M. MCCLINTOCK.
DENVER, April 11.—Possibility of a special session of the legislature becomes daily stronger. Unless either the house or the senate recedes from its position on the appropriation bills, a deadlock is certain. And, even at the best, it is becoming apparent that, however either chamber passes the appropriation bills, their final form will be determined in conference. Moreover, if conferences result as they invariably have during the session, the senate will get what it wants—provided the conferees can complete their work before adjournment. The house this morning passed on third reading five appropriation bills for the State university, for the reformatories for the Soldiers and Sailors home, for the State Industrial School for Girls, and for the insane asylum. Bills for these same purposes are pending in the senate, and have passed third reading. What the senate will probably do is to attach the senate bills to the house titles and send them back to the house for concurrence.

Two Houses Far Apart.
How far apart the two bodies are on certain appropriations may be judged from the fact that the house appropriates \$190,000 for the State university, while the senate gives only \$85,000—both these sums, of course, being in addition to the revenue derived from the constitutional mill levy. The senate is acting on the theory that the penal and charitable institutions should be looked after first, and therefore gives the insane asylum a much larger appropriation than is given by the house. The insane asylum is and has been for years a disgrace to the state; it is inadequate to hold the insane, and it is not supplied with modern equipment. That senate and house leaders have been unable to reach any agreement on the appropriations is the statement of J. B. Gates, chairman of the house (Continued on Page Two.)

SUGAR SCHEDULE

(Continued From Page One.)

\$1.348 as under the present law and \$1.048 in the committee bill. This would mean, by comparison with the present tariff law, a reduction of, roughly, 20 cents at the outset. On 100 degree sugar cane from sources other than Cuba, the Broussard amendment would make a net reduction from the present rates of 37 1/2 cents per hundred pounds on passages of the bill, 50 cents in 1916 and 62 cents in 1919. The pending tariff bill rate is 54 cents.

Another Broussard amendment would extend the period of grace under which the contemplated free sugar basis was to be reached to a total of four years so as to carry the whole question beyond the next national election.

CLEAR-CUT PROOF

(Continued From Page One.)

of the Western Union Telegraph company in this city.

In its insinuating article on the front page last night, the Telegraph stated that it would be interesting to know just when this deed was actually made, and that it was not recorded.

We give the information requested in the following abstracts from the official records of Mineral county, Nevada, by which Mr. McKesson deeded the property to the Nevada Portland Gold Mining company:

QUIT CLAIM DEED.

Filing Number 21402.

The records of Mineral county (formerly Esmeralda county), Nevada, show that on January 25, 1907, Charles L. McKesson deeded to the Nevada Portland Gold Mining company the following lode mining claims located in the Alum creek mining district in Esmeralda county (now Mineral county), Nevada, to-wit:

The Black Box lode mining claim, The Lillian lode mining claim.

And that said deed was acknowledged March 8, 1907, before William M. Swift, a notary public, and filed for record by Charles L. McKesson, April 18, 1907, at 2 p. m., and recorded in book 6 of deeds, page 237, of the records of Esmeralda county.

MINING DEED.

Filing Number 21405.

The records of Mineral county (formerly Esmeralda county), Nevada, show that on April 18, 1907, W. O. Sloan deeded to the Nevada Portland Gold Mining company, the M. L. B. lode mining claim situated in the Alum creek mining district in Esmeralda county (now Mineral county), Nevada, and that said deed was acknowledged April 18, 1907, before E. Hardy, county clerk of Esmeralda county (now Mineral county), Nevada, and that said deed was filed for record by Charles L. McKesson, April 18, 1907, at 2 p. m., in book 6 of deeds, page 237, of the records of Esmeralda county (now Mineral county), Nevada.

MINING DEED.

Filing Number 21406.

The records of Mineral county (formerly Esmeralda county), Nevada, show that on April 18, 1907, Thora Lima deeded to the Nevada Portland Gold Mining company the M. L. B. lode mining claim, situated in the Alum creek mining district in Esmeralda county (now Mineral county), Nevada, and that said deed was filed for record by Charles L. McKesson, April 18, 1907, at 2 p. m., in book 6 of deeds, page 237, of the records of Esmeralda county (now Mineral county), Nevada.

WARRANTY DEED.

Filing Number 21408.

The records of Mineral county (formerly Esmeralda county), Nevada, show that on February 4, 1907, Charles L. McKesson conveyed by warranty deed to the Nevada Portland Gold Mining company the S. E. 1/4 of Township 20 N., Range 30 E., M. D. B. & M., and that said deed was acknowledged before William M. Swift, a notary public, on March 8, 1907, and was filed for record by Charles L. McKesson in the office of the county recorder of Esmeralda county (now Mineral county), Nevada, on April 18, 1907, at 2 p. m., and was recorded in book 6 of deeds, at page 238, of the records of Esmeralda county (now Mineral county), Nevada.

During the afternoon session of the bill became so strong, and there was such a determined lobby of state employees on the floor against it, that an executive session was held. When the doors were again opened, the Finance committee had apparently secured firm control again, and though Bellesfield and Mr. Robinson protested against the reduction in salaries, the bill finally went through. Hints accused Bellesfield of playing to the galleries. Before the bill passed, amendments were adopted cutting out several additional employees from the civil service.

Senator Burgess, chairman of the senate Finance committee, claims that there is no reason for disagreement between the house and senate, and that there will be no need of a special session. "We won't quarrel seriously with the house if it wants to donate to state institutions money that doesn't exist," he said, "and as to the long appropriation bill, with the salary appropriations, we shall consider that on its merits when the house sends it over, and if the house can show how to pay the salaries at present paid, and still keep within the revenues of the state, there won't be any objection from this side."

This man Gates apparently has the shell head. There's no reason why he should oppose appropriation bills simply because they come from the senate. And there's no reason why the two chambers should not get together on a friendly basis in conference over these bills.

Many Severely Blasted.

Besides S. R. 495, the senate last night, on second reading, adopted the senate appropriation bill, amended as advised by the Finance committee.

All these appropriation bills are run greatly from the amounts asked, and yet it is the opinion of the senators that there will be no money for many of them. All the bills were amended by the addition of the above demanded by the senate, that the indebtedness shall be created under any of them until the money necessary for the carrying out of the purpose of

DEADLOCK CERTAIN

(Continued from Page One.)

appropriations committee. The great stumbling block will be senate bill No. 495, which under the pretense of reducing salaries—which it does to an extent—practically repeals the civil service law adopted by the people at the last election.

It is not protection of the civil service law that is raising the house members, however, but the desire to prevent the reduction of the salaries of clerks and stenographers. In the long appropriation bill the house leaders have provided that clerks and stenographers shall receive the same salary as at present, but that the number shall be reduced.

Bill Finally Passes.

During the afternoon session of the bill became so strong, and there was such a determined lobby of state employees on the floor against it, that an executive session was held. When the doors were again opened, the Finance committee had apparently secured firm control again, and though Bellesfield and Mr. Robinson protested against the reduction in salaries, the bill finally went through. Hints accused Bellesfield of playing to the galleries. Before the bill passed, amendments were adopted cutting out several additional employees from the civil service.

Senator Burgess, chairman of the senate Finance committee, claims that there is no reason for disagreement between the house and senate, and that there will be no need of a special session. G. O. P. FOLLOWS EXAMPLE SET BY PROGRESSIVES FOR OPEN CAUCUS IDEA

WASHINGTON, April 11.—In open caucus the Republican members of the house laid plans tonight for a vigorous organized opposition to the Underwood tariff bill. The conference ordered the preparation of amendments to the Underwood bill providing a nonpartisan tariff board and for revisions of the cotton and wool schedules of the tariff.

Republican members of the house ways and means committee were instructed to have these amendments ready to be presented to the caucus next Thursday.

When the caucus met a lengthy debate resulted in a decision to make the meeting a public affair. In the course of the argument Representative Towne of Iowa, and Representative Sloan of Nebraska criticized the activity of President Wilson in connection with the framing of the Democratic tariff bill.

The resolution endorsing the tariff board was passed with but little opposition, but the cotton and wool schedules evoked a rather heated controversy between Minority Leader Mann and Representative Lenroot of Wisconsin, a Republican. Representative Lenroot wanted the caucus to endorse the schedules framed by the Republicans of the ways and means committee in the last congress, based on the report of the tariff board and offered as a substitute to the Democratic cotton and wool bills passed by the last house. The entire matter was referred to the Republican members of the ways and means committee.

NEED OF BIGGER NAVY EMPHASIZED IN SPEECH BY SECRETARY DANIELS

WASHINGTON, April 11.—When the people plead for a greater American navy, we will have it, and not fill them," declared Secretary Daniels in an address at the annual banquet of the Navy League of the United States tonight. "If we can convince the people of the United States that the navy is their right and that we are here servants to carry out their wishes and interests in regard to it," said the secretary, "I will feel that my service here has not been in vain."

"I don't want the people to feel that the navy is anchored somewhere away from them in the far distance of professionalisms, but that it is moored alongside of the American home, and for its protection, I want them to know about it, not only its past glories but its present efficiency and its future possibilities."

"Let us have done for once and forever with the silly boasting of the stripings that we are able to lick any nation on earth. Let us have done with threats, but let us have done with the underestimating of our strength, the minimizing of our naval esprit de corps, of the spirit which would deny that our naval heroes of today are patently as famous as the men whose names are on every tongue."

CAN ERADICATE MALARIA IN 5 YEARS, SAYS EXPERT

ST. LOUIS, April 11.—A plan for a malaria commission to investigate malaria throughout the United States and report to the National Drainage congress next year, was outlined by a subcommittee today and will be submitted to the congress tomorrow.

The proposal followed an address on malaria today by Dr. William C. Evans, who declared the disease could be eradicated from the United States within five years by proper measures.

CHICAGO TO GET FRESH VEGETABLES AT COST SOON

CHICAGO, April 11.—Vegetables at cost direct from the farmer to the consumer will be available in this city after April 25, according to a plan by Texas farmers to demonstrate the possibility of economy in distribution of farm products. Thirty Texas farmers have formed an association to begin the attack on the cost of living.

ADDRESSED TO WOMEN

Hot Flashes Dizziness

Are among the most common of the many danger signals nature sends in advance of that period in a woman's life when her delicate organism undergoes an important change. It is a warning. Serious consequences may follow any carelessness just at this time. Your health must have first consideration.

Dr. Pierce's Favorite Prescription

Makes Weak Women Strong Sick Women Well

This Famous Prescription has brought relief under these circumstances to thousands of women during the past forty years. It can now be had of medicine dealers in liquid or tablet form as modified by R. V. Pierce, M. D., or send 50 one-cent stamps for trial box of tablets.

Every woman is invited to write and receive confidential and sound medical advice, entirely without cost, from a physician who makes ill of women his specialty.

Consultation Free

Address: Faculty Dr. Pierce's Invalids' Hotel Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

"Be-Just-For Two Years"

Mrs. GEORGE ELLIOTT writes: "I know your medicine helped me wonderfully. I was so weak and nervous I could not sleep. I had a very poor appetite. Had such an aching between my shoulders and such dreadful headaches. My tongue would be heavily coated every morning and would get so dry. I am 45 years old. Have been having 'change of life.' I declared a great deal but your medicine helped me more than all the doctors. I took six bottles of 'Favorite Prescription' and three of 'Golden Medical Discovery.' I can now sleep good at night. My tongue is not coated and my medicine have removed many of my symptoms. I know if I had taken six bottles more I would have been cured. I was about forty for two years, now I do all my work and attend to my garden and chickens. I cannot praise Dr. Pierce's medicine too highly."

INSURANCE LEGISLATION STANDS POOR CHANCE

Special to The Gazette.
DENVER, April 11.—The chance that there will be any insurance legislation passed by this session of the legislature today became very slim indeed. The house unanimously adopted the report of the appropriations committee on the bill consolidating the insurance and banking departments, indefinitely postponing its consideration. It will require a two-thirds vote to revive the bill. The measure was one of Governor Ammons' pet economy measures. The report against the bill was signed by P. B. Gates, chairman of the appropriations committee, and it was Wright of Denver who made the motion that the report of the committee be indefinitely postponed this bill, as well as half a hundred others, be adopted. No one came to its defense. The committee favored the indefinite postponement of the bill because "the character of insurance and banking is not at all similar, but of distinctive and separate character, each by itself being an expert line." The consolidation proposed could only affect an insignificant saving in administration at a probable loss of efficiency and revenue income.

Philip Bill Pigeon-holed.
Meantime the Philip insurance code bill has been reposing peacefully in the senate committee to which it was assigned on its arrival in the upper body from the house. The bill is so long and complicated, and the time remaining of the present session is so short, that there is not one chance in a hundred that the bill can be reported out and passed before adjournment Tuesday.

There is, therefore, but one bill that now stands much chance of passage that will affect the insurance department. That is senate bill 495, fixing salaries of state employees, which takes the insurance department out of civil service, and makes the commissioner appointive by the governor without regard to civil service. Unless this bill passes the governor will probably be forced to appoint Professor Epstein, of the University of Colorado, insurance commissioner, as there seems small chance that Commissioner Clayton will be upheld by the courts in his fight against civil service. Professor Epstein stood highest in the civil service examination, but the Colorado insurance companies seem very determined to prevent his appointment at any cost.

I.W.W. Army Takes Hasty Exit From Grand Junction

GRAND JUNCTION, April 11.—Confronted by the hasty organization of business men, high school athletes and members of union labor locals, sworn in to preserve the peace, the band of more than 100 Industrial Workers of the World, waiting here for reinforcements from the west to march on Denver, silently stole out of town tonight. Three thousand people thronged the streets until a late hour, while special police patrolled the residence sections in anticipation of trouble.

The departure of the workers was more difficult than their arrival. Receiver, Valley, of the Colorado Midland railroad served notice that any attempt to commandeer freight cars would be construed as a violation of federal statutes, as the road is operating under the federal courts.

Some Strike Out Afoot.
Considerably disappointed, the workers agreed to disband and strike out for Denver, some afoot and some paying fare.

The organization to maintain the peace will be continued in anticipation of 300 more workers due tomorrow from the west. They will be escorted to the bull pen and fed on bread and water until ready to leave.

Minor offenses committed by the workers today served to heighten the local dissatisfaction with the policy of Mayor Todd and Chief of Police Hutchinson in allowing the workers the liberty of speaking in the streets. A recall of the mayor is being agitated to night.

Creates Much Strife.
GRAND JUNCTION, Colo., April 11.—Five hundred citizens at a mass meeting today adopted resolutions demanding that the sheriff drive out the 130 Industrial Workers of the World who recently invaded Grand Junction on a pilgrimage from the Pacific coast to Denver. The meeting also demanded the resignation of Mayor Todd, a Socialist, because he was considered friendly to the Industrial Workers. The mayor refused to resign or to accede to the demand that he dismiss Chief of Police Hutchinson, who had publicly announced that he would arrest anyone interfering with the street meetings of the visitors.

P. McEvoy, leader of the Industrial Workers, announced this afternoon that a meeting would be held on the streets tonight and that his men would organize their own police force to prevent interference. Efforts are being made to prevent a clash between Industrial Workers and citizens. At the mass meeting today, the mayor and the chief of police were hissed down when they attempted to defend their action in befriending the Industrial Workers. A resolution was introduced calling on the citizens to arm themselves and drive out the Industrial Workers. It was defeated by a narrow margin.

A CARD.
This is to certify that all druggists are authorized to refund your money on Foley's Honey and Tar Compound fails to cure your cough or cold. John Bernet, Tell, Wis., states: "I have used Foley's Honey and Tar Compound as a family medicine for five years and it has always given the best of satisfaction and produced good results. It will always cure a cough or cold. For children it is indispensable on account of its pleasant taste and its freedom from opiates." Refuse substitutes. Robinson Drug Co. Adv.

"MARRYING SWINDLER" IDENTIFIED IN CHICAGO

CHICAGO, April 11.—While the local police had previously satisfied themselves that "Jack Lewis," alias "Weaver B. Clark," alleged "marrying swindler," was really E. C. Von Klein, a diamond broker of Milwaukee, the identification was confirmed this afternoon by W. A. Pemberton, head houseman of the Elks club rooms here. Hereafter the prisoner will be known to the police as Von Klein.

At the county jail when Jailer Davies ordered Von Klein brought to the office the latter sent back word that he was ill.

"Bring him down on a stretcher then," commanded Davies and the order was promptly obeyed. The prisoner had tied a handkerchief around his face and struggled to keep it there, but it was torn away.

CHINA PROCLAIMS HER INDEPENDENCE TO WORLD

WASHINGTON, April 11.—The Chinese declaration of independence, which took the form of an address to the world, was cabled here from Peking today and after being read in the cabinet meeting, was made public. State department officials declared that it reflected the influence of the young Chinese members educated in American colleges. The president and his cabinet praised it enthusiastically and formal recognition of the republic by the United States awaits only the actual organization of the constituent assembly which meets again tomorrow in Peking.

SPENCER HEATER COMPANY PLANS BRANCH IN DENVER

DENVER, April 11.—Francis O'Neill of Scranton, Pa., is in Denver to establish a branch of the Spencer Heater company of Scranton. O'Neill will open an office at 323 Seventeenth street at once. The Spencer Heater company is a 35-year-old institution, and is said to have made a success of its efforts to manufacture by-products from coal. It is said that a factory will be established here and that Colorado coal will be used.

PRESIDENT WILSON FOR FAVORED NATION CLAUSE

WASHINGTON, April 11.—President Wilson does not believe congress should repeal the favored-nation clause of the tariff law under which trade conventions heretofore have been made with other countries. He declared that the proposed reciprocity agreements, in his opinion, would not be in violation of the favored-nation clauses in existing treaties.

Pains All Over

Houston, Tex.—"For five years," says Mrs. L. Fulencheck, of this place, "I suffered with pains all over, especially in my back and side, and was so weak I could hardly do my housework. A friend told me of Cardui. Since taking it, I feel so much better! Now I can do all my housework and pains don't bother me any more at all." Cardui is a strength-building medicine. Fifty years of success have produced, amongst its many users, confidence in Cardui and what it will do. During this time, Cardui has relieved the female ailments of over a million women. Why not yours? Try it today. Your druggist tells it. Adv.

SOCIETY

Denver May Have More Grand Opera

Some of those fortunate ones who were in Denver for the opening night of grand opera came back yesterday and report their satisfaction with all that they saw and heard. Those who could not go were wistfully glad that it was all so successful, since that fact probably assures Denver, and shows all the state, of a repetition next winter, and perhaps every winter. And in time those who were not able to go this time may be able to spend a few days in Denver when the season is on there.

"It seems, too, that Denver is indebted to the past of the state for generous support. Passes have been abolished during the past year, and the fact that there were so many from out of the city in attendance speaks well for the musical appreciation of the state. And if it becomes known that worthwhile things are well patronized out here, there will be more and more of them to patronize in the future."

Dancing and Physical Training Classes Close Season

A number of prominent society women, with a few proud fathers, went to the San Luis school yesterday afternoon, to see the closing session of Miss Hatty-May Bennett's dancing class, which numbers among its members some interesting members of the youngest set of all.

The children went through their regular program for the benefit of the visitors, and they gave evidence that they had enjoyed the winter of dancing, with its variations of folk-dancing, to the utmost, and they have gained much from it. There were two classes of the children—those between 4½ and 6 years, and older ones up to about 12 years. Their program began with a grand march, in which everybody joined, and then the youngest children gave the stately court minuet. They gave the steps gracefully and correctly, too, and were applauded when they had finished. And then the same children gave some physical training exercises, which included the "Shoemakers' Dance," the "Danish Dance of Greeting," and the jolly "Nixie Polka." An interpolation in the regular dancing school program was some work with musical dumbbells, showing what can be done with the shoulders. The children who took part in these exercises belonged to a private class of Miss Bennett's, and the number was one of the most attractive of the afternoon.

The baby class showed that the tots knew of the waltz, and while they have not gone far enough to know the fundamentals of ballroom behavior perfectly in hand. The polite and ceremonious bows the young men gave their partners were most Chesterfieldian—and it may be added, somebody whispered that they were far in advance of those made in the ballrooms where the babies elders congregate. The older class knows all about waltzing, as they proceeded to demonstrate, and they had a merry time on the good floor, with the inspiring music.

When the Tango was announced, everybody looked interested; but Miss Bennett announced that she did not feel that the children knew enough as yet about dancing to be taught how to "rag," so the dance closed with two-stepping instead of ragging. The members of the advanced class next gave some balanced barn dancing that was lively and very well done.

Miss Helen and Miss Dorothy Drummond, daughters of Mr. and Mrs. Arthur Leinax Drummond, who have been working on fancy dancing, filled the intermission with some solo dances. Miss Helen gave a very graceful and pretty Greek dance, while her sister gave the saucy Irish Lilt. Both the young ladies showed that they have worked faithfully, and that they have a great deal of natural ability as dancers, and they were heartily applauded. Some military tactics, which the pupils in the private athletic classes like so well, that they are given as rewards of merit, were given with skill and precision, and it was very evident that the work was popular.

Everybody, young and old, likes the Virginia reel, and the children closed their program, and their year's work, with the old dance, to the tune of "Dixie." And when they had all had their turn at leading, the class was dismissed for the summer. The children, some of whom had brought flowers to Miss Bennett as a token of farewell, were very evidently sorry the year was over, and one little boy said: "If you are going to have some more drilling in the fall, I'll be here."

Portia Club Met Thursday

The meeting of the Portia club, held Thursday afternoon at the home of Mrs. Louis N. Depeyre, 1604 Colorado avenue, was very interesting. The program dealt with two modern writers, Richard Harding Davis and Mary Stewart Cutting. Mrs. A. L. Mowry spoke of the characteristics of the two writers, and read a story, "When Clytie Came Back," written by Mrs. Cutting, and parts of Davis' "Bar Sinister" and "Captain Macklin." In addition to this feature the program contained some songs by Miss Dorothy Drummond and some eight-hand performances by Earl Harmon. Refreshments were served at the close of the afternoon. Mrs. Frank M. McMahon, Mrs. L. H. Allen and Mrs. McKim of Cripple Creek assisting in serving.

Luncheon Yesterday

A pretty luncheon was given yesterday by Mrs. Francis W. Goddard, at her home on North Cascade avenue. The guests were Mrs. J. M. Bonnis, Mrs. Irving Howbert, Mrs. Boswell, P. Anderson, Mrs. Albert Webster Gray, Mrs. Charles Fox Gardiner, Mrs. Franklin E. Brooks, Miss Sarah Wilson, Miss Annie Wilson, Mrs. Henry Hine, Mrs. Francis D. Pastorius, Miss Holmes and the hostess.

Telephone Girls Have Pretty Dance

Perhaps the ballroom at the Acacia hotel never looked more attractive than it did last night, on the occasion of the monthly dance of the Alta club, the organization of the telephone girls.

The colors of the club are blue and white, and crepe paper streamers in these tints were festooned over the ceiling and walls with very good effect. The programs carried out the same colors. The most unique idea, however, was the use of telephones in the decorations. Around the banisters of the platform, where the musicians were seated, were four standard or desk phones, and below were four box instruments. These had been arranged so the bells could be rung, and the tinkling was a pretty accompaniment to some of the dances.

Woman's Literary Club

The regular meeting of the Woman's Literary club will be held this afternoon at 3 o'clock, at the home of Mrs. William E. Fryhofer, 225 East Tampa street.

Open Progress Club

A meeting of the Open Progress club will be held at 3 o'clock Monday afternoon at the home of Mrs. McKeehan, 581 North Weber street. Mrs. Robinson's subject will be "The Invention of Printing and Its Consequences." Miss Flansburg will speak on "Caxton's Work in England."

W. C. T. U. Date Changed

The regular meeting of the North End Woman's Christian Temperance union will be held Monday afternoon at 3 o'clock instead of today, as usual. The meeting will be held at the home of Mrs. A. B. Conwell, 221 East Dale street. This will be "Missionary day," and members of the various missionary societies are invited to be present.

The society editor requests that all news intended for this column should reach her before 6 o'clock on the evening before it is to appear. It can be given either personally or by telephone, Main 215, but it is necessary that it should reach her before that time.

Deaths and Funerals

The funeral of Samuel H. Lawthers, who died yesterday, will be held at 3 o'clock this afternoon from the home of his sister, Mrs. Hugh Shiffady, 1117 East Willamette avenue. Interment will be in Evergreen cemetery. Mr. Lawthers is survived by his wife, three sisters living in Massachusetts, Mrs.

YOUTHFUL CHARM.

The impending popularity of pleats will certainly be worth the cost of extra material of the gowns of which they are the keynote as are harmonious in line as the one shown above. The girlish simplicity of this frock has been emphasized by the trimming used which consists of little pink roses joined by strands of pearls. The material was white voile. The pearl passementerie outlines neck and armhole; the right side of the neck being further trimmed by a ruffle of fine lace. The skirt consists merely of a double flounce, narrowly pleated. A pink satin sash was used.

The Colorado Springs Dry Goods Co.
120-122 South Tejon Street

Colorado City DEPARTMENT

William Mitchell, aged 36, died yesterday at his home, 228 South Wahsatch avenue. Arrangements for the funeral have not been made, pending the arrival of relatives from Texas.

The body of Miss Laura E. Carlton, who died at 115 East Chumerson street, Wednesday night, will be taken to Oulka, N. D., next Monday.

The funeral of Daniel Kennedy will be held from St. Mary's church tomorrow afternoon at 2 o'clock, interment being in Evergreen cemetery. He was born in Tipperary, Ireland, and had lived in America about nine years. He is survived by his parents, three sisters and two brothers, and was a member of the local lodge of Hibernians.

Al. Braun is preparing to remove to Pueblo.

Mrs. Ellen McClelland of Durango is being entertained by Mr. and Mrs. Alex. Tava.

William Stott has been awarded a contract to erect a brick business building in Pueblo.

The Misses Luella and Lucile Huff, who have been ill for the last few days, are recovering.

Mrs. Isabella Clough of 25 Lincoln avenue, who has been ill at St. Francis hospital, expects to return to her home soon.

A supply of California poppy seed has been sent to the High school here from Sacramento, with a view of encouraging cultivation of that flower.

Dr. Brackett of the State university will be here Tuesday morning and will address the students of the High school at 10 o'clock.

Arbor day will be observed in all the city schools, with the planting of trees, shrubs and ivy features of the day's exercises.

Pupils of the local public schools have raised more than \$15 for the Ohio flood sufferers, and this sum has been turned over to the county superintendent to be sent east.

Mrs. Francis W. Goddard of Colorado Springs will address the students of the High school Friday morning at 9 o'clock on "Bird Life and Government Reservations."

The council No. 10, Degree of Pochontas, will give a high five social in Redmen hall this evening. Refreshments will be served.

The baptism of Helen, the 4-week-old daughter of Mr. and Mrs. Nick Miller, of Canon, will be performed this morning at 10 o'clock at the home of Mrs. E. A. Chapin, 522 Enrich street. The ceremony will take place in the same room in which the bride and bridegroom were married in May, 1912, and will be in accordance with the rites of the Greek Orthodox church.

American exports to Turkey go up about ten-fold every 10 years. They rose from \$50,000 in 1891 to \$500,000 in 1901, and then to \$5,000,000 in 1911.

Absolutely Pure and of Fine Quality Baker's Breakfast Cocoa

is a Delicious and Wholesome Drink

Made by a perfect mechanical process, without the use of chemicals, thus preserving the delicate natural flavor, aroma and color characteristic of high-grade cocoa beans.

Be sure that you get the genuine with the trade-mark on the package.

WALTER BAKER & CO. Limited DORCHESTER, MASS.

ESTABLISHED 1870

DEMOCRATS OPPOSE TO REAPPORTIONMENT

Would Reduce Representation in the Mountain Districts

By R. M. McCLINTOCK.
DENVER, April 11.—The much-needed reapportionment of Colorado's congressional, senatorial and representative districts bids full, along with many other matters, to fall by the wayside. There is a possibility that a congressional reapportionment bill will be passed but the action of the senate committee on reapportionment in reporting an assembly reapportionment bill in which no attention is paid to the house reapportionment, makes a deadlock between the two chambers extremely likely.

Such a deadlock, in fact, would not displease many Democratic politicians. Any reapportionment would cost the Democratic party members. The Democratic stronghold have been in the mining counties, which have lost in population, while the cities and eastern Colorado have gained since the last apportionment. Therefore, the mining counties will lose members and the farming counties gain—and the politicians do not look kindly at this possibility.

Four Districts Created.
The senate amended Finch's congressional reapportionment bill so that the four districts will be made up as follows:

First district—Denver.
Second district—Adams, Arapahoe, Boulder, Cheyenne, Douglas, Elbert, El Paso, Kit Carson, Larimer, Lincoln, Logan, Morgan, Phillips, Sedgwick, Washington, Weld and Yuma.
Third district—Alamosa, Baca, Bent, Clear Creek, Conejos, Costilla, Crowley, Custer, Fremont, Gilpin, Huerfano, Jefferson, Kiowa, Las Animas, Mineral, Otero, Park, Prowers, Pueblo, Rio Grande, Saguache and Teller.
Fourth district—Archuleta, Chaffee, Delta, Dolores, Eagle, Garfield, Grand, Gunnison, Hinsdale, Jackson, Lake, La Plata, Mesa, Moffat, Montezuma, Montrose, Ouray, Pitkin, Rio Blanco, Routt, San Juan, San Miguel and Summit.

As so amended an effort will be made to force it through the senate. It is not believed a compromise between the house and senate on this bill is impossible.

As to State Senators.
As to state senators the senate committee would thus divide the state into four districts: Denver, Pueblo and El Paso 2 each. These counties shall one senator each. Las Animas, Boulder, Weld, Jefferson, Larimer, Mesa, Alamosa, Teller and Custer shall be coupled with one senator to each district. Chaffee and Lake, Custer and Fremont, Gunnison and Delta, Logan, Morgan and Sedgwick, Jackson, Routt, Rio Blanco and Moffat, Costilla, Huerfano and Saguache, Kit Carson, Phillips, Washington and Yuma, Dolores, Montrose and San Miguel, Hinsdale, Mineral, Ouray, San Juan and Rio Grande, Archuleta, La Plata and Montezuma, Teller and Park, Eagle, Garfield and Pitkin, Adams and Arapahoe, Crowley and Otero, Baca, Bent, Kiowa and Prowers, Clear Creek, Gilpin, Douglas and Summit, Cheyenne, Elbert, Douglas and Lincoln.

Reduces Representation.
This reapportionment would reduce considerably the mining representation and increase the representation from the farming counties especially those in eastern Colorado which now, because they are flooded with Denver, have no representation.

The house membership is divided as follows: Denver 12, Pueblo, 4, El Paso, 2, Weld, Larimer, Boulder, Mesa, Las Animas, Teller and Park, Fremont and Custer, Crowley and Otero, 2 each.

The following counties are given one representative: Jefferson, Arapahoe, Garfield, Delta, Montrose, Conejos, Alamosa, Adams, Pitkin, La Plata, Lake, Rio Grande, San Miguel, Chaffee, Morgan.

The following are coupled with 1 each: Logan and Sedgwick, Phillips and Yuma, Douglas, Elbert and Lincoln, Washington, Kit Carson and Cheyenne, Kiowa and Bent, Prowers and Baca, Clear Creek and Gilpin, Ouray and San Juan, Gunnison and Hinsdale, Summit, Archuleta and Mineral, Routt, Jackson and Grand, Moffat and Rio Blanco, Eagle and Summit, Huerfano and Costilla, Montezuma and Dolores.

The Progressives and Republicans in the house would like to accept this reapportionment. It is a much fairer one than was passed by the house. It will be bitterly fought by the mining counties however, and the Democratic machine, and there is little probability that it could be carried.

Rheumatism is a result of kidney trouble, stiff and aching joints, backache, numbness and sore feet are all good quickly to in healing and curing quailties of Foley Kidney Pills. They regulate urinary irregularities and restore normal action. John Velber, Foster, Calif. says: "I suffered for years with kidney trouble and could never get relief until I tried Foley Kidney Pills, which effected a complete cure. I can now do habituating things. Redmond Drug Co. Adv."

RUSSIAN NOBLEWOMAN KILLS SELF IN 'FRISCO
SAN FRANCISCO, April 11.—Miss Olga Tenchich of St. Petersburg, a Russian noblewoman, was found dead in her room at a fashionable hotel tonight with bullet wound in her heart. It is believed she committed suicide. She was betrothed to a local merchant and, according to the police, the tragedy followed a quarrel.

CONFERENCE HELD TO ADJUST DIFFICULTIES
CHICAGO, April 11.—Commissioner of Labor Charles P. Neill met with the committee of railroad managers here today in a further effort to adjust differences between the railroads and the 4,000 switchmen employed in this city.

ONE KILLED, MANY HURT IN U. P. WRECK

Train Derailed Near Cheyenne Wells, Colo., Plunging Into Snowdrift

CHEYENNE WELLS, Colo., April 11.—One killed, two probably fatally injured and a dozen less seriously hurt, was the toll of a wreck on the Union Pacific two and a half miles west of here late last night, when a passenger train, drawn by two heavy engines, plunged into a snow drift and was derailed.

William Males, of Sharon, Ellipton, Kan., fireman on the second engine, was killed when his engine overturned. Thomas Mylan, fireman of the lead engine, whose home is in Hugo, Colo., and J. E. L. Dostal of Hugo, fireman on the second engine, received scalds and cuts from which it is feared they will die.

Among the other injured are E. E. Thomas, Kansas City, three ribs broken. W. H. Graham, Kansas City, bruised about the body and head. John Larson, Hugo, Colo. W. H. Jones, Kansas City, Mrs. A. P. Jackson, Laidlaw, Ore. and P. A. Sawyer, Tul-dez, Alaska.

Others less seriously injured refused to give their names.

The pilot of the lead engine broke from its fastenings when the train hit the drift and rolled beneath the engine, turning it on its side. The second engine was turned over completely and is lying about 30 feet from the track. The mail car, baggage car and first coach were thrown from the track, but remained upright. The train is said to have been running at the rate of 20 miles an hour when the accident occurred.

A relief train was ordered from Denver, and special trains from surrounding towns bearing doctors and nurses were hurried to the scene of the wreck.

Injured Taken to Denver.
DENVER, April 11.—The relief train sent from Denver at noon to aid the passengers in the Union Pacific wreck near Cheyenne Wells, returned to Denver with some of the injured at 9:30 o'clock tonight. Those who were considered badly hurt were immediately transferred from the relief train to Mercy hospital where they are receiving medical attention. Fireman Thomas Mylan and J. E. L. Dostal are believed to be fatally injured, their wounds consisting of serious scalds and cuts. E. E. Thomas, mail clerk, is suffering from three broken ribs and possibly internal injuries. Some of the injured and many passengers continued their journey eastward to Kansas City.

TWO U. S. SAILORS ARE KILLED, THREE HURT AT GUAYMAS, MEXICO

WASHINGTON, April 11.—The attention of the state department, which lately has been given to a vexatious problem arising from the wounding of American soldiers and other American citizens along the Mexican border, was directed today to the serious situation resulting from the slaying of a petty officer and a sailor from the United States cruiser California at Guaymas, Mexico, in reporting the deaths to the department said a strict investigation was being made.

The shooting was done by the chief of police of Guaymas and, as American sailors going ashore in a foreign country invariably go unarmed, officials here will insist that the circumstances of the slaying be probed to the bottom.

If the Mexican authorities are unable to show that there was provocation for the attack by the armed police, serious consequences may ensue. It was pointed out that the double killing might be taken as an indication of the inadequacy of the present government and have influence when the United States gives further consideration to the question of recognition of the Huerta government.

Claim Americans Were Drunk.
GUAYMAS Sonora, Mexico, April 11.—The killing here of Seamen J. C. Klesow and W. W. Corrie and the wounding of three other sailors from the United States cruiser California on Wednesday, resulted today in a request from Americans at Mazatlan that a cruiser be detailed to the Pacific port. Anti-American feeling is said to have resulted at other points down the west coast and as well to have occasioned the fight between American sailors and police here.

An official consular report from an eyewitness of the fight of Wednesday morning says that the Americans were drunk. The men are said to have been shot by the chief of police. For some time irritation on the part of Mexicans had been evident, admittedly caused by the presence in Mexican waters of American ships of war. All sailors permitted to go on shore leave had been given strict orders to maintain friendly relations.

Klesow Native of Frisco.
SAN FRANCISCO, April 11.—John Klesow, the San Francisco marine who was killed at Guaymas, was a native of this city, 31 years of age. His father is a retired sea captain.

Klesow was a veteran of the Spanish-American war, and was decorated for bravery on the field. His record in the navy was a splendid one. He had been on the cruiser California less than a year.

U. C. WINS IN DEBATE WITH KANSAS UNIVERSITY
BOULDER, April 11.—The annual triangular debate between the University of Kansas and the University of Colorado was won here tonight by the three Colorado students. The subject was: Resolved, That a system of federal regulation should be substituted for the Sherman antitrust law.

Alex Reibschneid THE GLOBE South Tejon Street

ATTEMPT TO WRECK NACO, MEXICO, WITH DYNAMITE FAILURE

NACO, Ariz., April 11.—Another attempt to annihilate Naco Sonora by dynamite, without apparent care for the result to the Arizona town, failed late today. State troops loaded six hundred pounds of dynamite and 500 pounds of klan powder on a car and dispatched it by gravity toward the two border towns. The time fuse failed to operate.

The federalists hauled the car to the garrison and celebrated the bloodless victory holistically. To prevent a recurrence of the attempt, General Uteja ordered a long section of the railway track torn up below Naco. The work was accomplished without opposition.

There was no resumption of the cannonading today, and the federalists rested in assurance of their strong position.

GEORGIAN TO SUCCEED DURAND AS CENSUS MAN

WASHINGTON, April 11.—W. J. Harris, Democratic state chairman of Georgia, will be nominated by President Wilson tomorrow to be director of the census to succeed E. Dana Durand.

Many minor nominations including several land office appointments, will be sent to the senate tomorrow. As the state department has not yet received a formal answer from Great Britain as to the acceptability of Walter H. Page for ambassador to the court of St. James, that nomination probably will not be made until next week.

EXPENSES OF STATE RUN HIGHER THAN SHAFROTH'S LAST ADMINISTRATION?

DENVER, April 11.—At the request of Governor Ammons, a constitutional amendment was introduced in the house today, dispensing with the state board of land commissioners and placing the duties of that board upon the governor, attorney general and superintendent of state instruction.

Accompanying the amendment was a lengthy typewritten reason for the introduction of the measure. Governor Ammons takes the position that the present land board is a too-expensive institution and that its work easily can be done by the officers named. The present land board consists of three commissioners, who are paid an annual salary of \$7,000.

The house late today amended the long nonappropriation bill as it came from the senate to include \$21,985 additional appropriations. This would bring the total of the bill to \$1,750,000 higher than that under the Shafroth administration and \$766,000 higher than the governor's recommendation.

The senate killed the constitutional amendment providing for the pamphlet method of publishing proposed initiative and referendum bills. Senator Lohm, however, urged a conference for today in order that some way might be devised in which the pamphlet amendment can be reconsidered and passed, since it is a platform pledge of the party.

The Tolson bill which would have permitted the public examiner to have control, under its auditing is a concern of the books of all county officials in the state. The tax levy bill making six mills a maximum levy for any county was passed on third reading.

MANY HAVE NARROW ESCAPE PUEBLO FIRE

PUEBLO, April 11.—Fire of unknown origin destroyed the Swift block, one of Pueblo's largest buildings at an early hour this morning. People living in the upper stories narrowly escaped with their lives.

The injured are: Miss Edith Morris legs broken. Mrs. John Lewis, internal injuries. John Lewis arm broken. Dr. J. C. Hatter, head cut. Miss Anna Griest nervous shock and suffocation.

The ground floor was occupied by the Cash Mercantile company, and doctors' offices were located on the second floor. The total loss will exceed \$360,000.

The Swift building in Pueblo, which was destroyed by fire early yesterday morning was one of the most dangerous fire traps in the smaller city according to Fire Chief P. B. McArthur of Colorado Springs, who was, for years head of the Pueblo fire department. McArthur was not surprised when he learned of the construction of the building as there were no less than six fires in it while he was chief there. All of these fires were put out before serious damage was done, although once 57 members of the Teamsters' union and four women were penned in on the fourth floor. McCarty's men brought out the women, and the men climbed down a fire escape to a point about 24 feet from the ground, whence they were rescued by the use of extension ladders. The building was a four-story brick of poor construction, according to McArthur.

Friedmann Thrown Out of Hotel Again

PROVIDENCE R. I., April 11.—Dr. Friedrich F. Friedmann, who claims to have a vaccine cure for tuberculosis, was notified today by the management of the hotel where he has been receiving patients, here that he will not be allowed to use his suite for professional purposes.

He was seeking new quarters tonight.

All his patients in the hall were asked to leave and private detectives were stationed at the doors to prevent others from entering. Six people who had taken rooms awaiting the treatment were asked to vacate.

Dr. Friedmann treated 15 tuberculosis patients at St. Joseph's hospital today. He left tonight for Washington to a just note the Washington academy of science tomorrow and to attend the Graham club banquet tomorrow night.

MORGAN REMAINS LIE AMID ART TREASURES

NEW YORK, April 11.—The body of J. Pierpont Morgan lies tonight among the art treasures of his private library. It reached New York on the steamer France, this afternoon and at dusk was taken from the ship's mortuary chapel to a motor hearse which conveyed it from the pier to the library.

Morgan's body lay in state in the library and stood in the streets to catch a glimpse among the bronzes, costly paintings and other art objects which he brought here from Europe, the body of the dead financier will lie until Monday morning, when the funeral services will be held in St. George's Protestant Episcopal church.

The France came into the harbor with her flags at half mast. Through the city streets a host of people gathered to catch a glimpse of the body of the late J. P. Morgan.

MEXICO BLAMES

(Continued From Page One.)
ward tendency of the exchange rate, the minister of finance is urging congress to authorize an increase of 10 per cent on the export tax on gold. This has brought Mexicans to the realization that even the national currency is no longer maintained on a solid basis.

Business conditions in Mexico are reflecting serious the revolutionary disturbances. Smelters at Monterrey, Velardeña and Torreon have been closed for lack of fuel. At San Luis Potosi the smelters are running on half time and at Aguas Calientes a third of capacity. At Chihuahua and Matamoros the mills are running on full time.

Transportation Facilities Crippled.
Transportation facilities remain seriously crippled.

Rebels practically control the states of Sonora, Coahuila and Durango, in the north while the situation in the south where Emiliano Zapata still is in control has not changed materially. In Nuevo Leon the federalists are beginning possession of the railroad to Laredo on the Texas border but the rebels push it back from this line of communication. The line extending to the zone of operations far to the eastward.

In southern Coahuila the rebels hold the same hilly neighborhood around Tlaxiaco and between the and Chihuahua, interrupting traffic on the Mexican central railroad almost at will.

EARTHQUAKE SHOCK FELT AT SALT LAKE

SALT LAKE CITY, April 12.—(Saturday).—An earthquake lasting several seconds was experienced here at 1:30 o'clock this morning. Telephone operators on the fifth floor of the telephone building reported that their transmitters were rocked by the force of the shock.

Train dispatchers of the Oregon Short Line railroad reported that the shock was felt throughout southeastern Idaho.

TO ENFORCE CURFEW LAW

That the curfew ordinance be enforced was the recommendation to the city council—promptly by the recreation and amusements commission, through its secretary, Margaret C. Finlay. The ordinance has been disregarded for some time.

Mrs. Finlay expressed the opinion that enforcement of the ordinance would be to the best interests of the young boys and girls of the city. The matter was referred to Commissioner Himebaugh, with the recommendation that the ordinance be enforced. The ordinance provides for the ringing of the curfew at 9 p. m., after which time no children less than 16 years old shall be permitted on the streets unless accompanied by older persons.

CHANGE OF TIME

Beginning Sunday, April 13th, "Short Line" passenger train will leave Colorado Springs at 10:35 a. m., arriving in Cripple Creek at 1:40 p. m.

700,000 TREES FOR N. CHEYENNE CANON

Federal Forest Service to Start Work Reforesting Territory 460 Acres

Under the supervision of Deputy Supervisor W. I. Hutchinson of the Pike National forest, the work of reforesting the slopes of North Cheyenne canon is being started. About 700,000 young trees, native to Colorado, will be planted in a territory of 460 acres, an average of about 1,500 trees to the acre.

Supervisor C. W. Fitzgerald of Denver was in Colorado Springs yesterday, and said that the work of reforesting will be in full swing early next week, when a force of 45 men will be in the forest camp in North Cheyenne canon. Eighteen men, he said, now are engaged in the work of digging and shipping the trees, all of which will come from the forest nursery at Monument. The trees are from 2 to 4 years old, and consist principally of western yellow pine, Douglas fir and red spruce.

The work will mean an expenditure of between \$5,000 and \$6,000, for salaries, provisions and equipment, and will not be completed before about two months. Mr. Fitzgerald said that local men will be given the preference in doing the work, and a number of those now engaged will ultimately enter the forest service.

W. I. Hutchinson, who will be in direct charge of the work here, will be assisted in the work of supervision by Forest Assistant E. S. Kellfry.

Hutchinson is a graduate of the Yale forestry school, and has had wide experience, having studied conditions in all parts of America, as well as in Europe and India.

Lookout Appointed.

In connection with the reforesting of North Cheyenne canon, Mr. Fitzgerald said yesterday that Ray M. Bradshaw, at present a member of the local fire department, will be appointed lookout for Colorado Springs, April 15. Bradshaw was given a furlough by Chief McCarroll and city officials at the last bad fire near the canons, and his work at that time was so successful that the service offered him the position of lookout. He is a fire fighter of ability, according to Mr. Fitzgerald, and will be a valuable man for the service.

Supervisor Fitzgerald expressed the hope that the citizens and city and county officials will continue to help the forest service this year as they have done in the past, and he hopes that whenever a forest fire is discovered an effort be made to notify Lookout Bradshaw at the earliest possible moment. The closest possible watch will be kept on the forests this summer, and it is hoped to keep the number of fires down to the minimum. There were 80 fires in the Pike forest last year, but Supervisor Fitzgerald points out that the guard service was so effective that little damage resulted. Getting to a fire promptly is one of the most important factors, and citizens generally are asked to cooperate with the forest service by notifying the lookout whenever a fire is sighted.

Y. M. C. A. WILL JOIN IN SUNDAY SCHOOL SERVICES

Instead of the usual meeting at the Y. M. C. A. tomorrow afternoon, the association will join with the El Paso County Sunday School association in the afternoon service to be held at the First Christian church, between 2:30 and 4:30 o'clock. There will be no service in the Y. M. C. A. lobby.

The Return of Blood Eruptions

No Reason Why Anyone Should Suffer With Such a Disheartening Experience.

No case of contagious blood poison is ever cured until the last particle of the virus has been removed from the circulation. The least taint left in the blood will, sooner or later, cause a fresh outbreak of the trouble, with all its hideous and destructive symptoms of ulcerated mouth and throat, copper colored spots, falling hair, sores and ulcers, etc. No other medicine so surely cures contagious blood poison as S. S. It goes down into the blood and steadily and surely drives out every particle of the infection. It absolutely and perfectly purifies the blood, and leaves this vital fluid as fresh, rich and healthy as it was before the destructive virus of contagious blood poison entered the circulation. S. S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and other blemishes, the hair stops coming out, the mouth and throat heal and when S. S. has cleansed the system of the poison no trace of the disease is left. S. S. cures contagious blood poison because it is the greatest of all blood purifiers, tested and proven in hundreds and hundreds of cases all over the country.

You will find S. S. for sale in all drug stores at \$1.00 per bottle. Write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga., for private medical advice and a very instructive book on all blood diseases, sent free, sealed in plain wrapper.

MEMBERSHIP CAMPAIGN IS GIVEN GOOD START

Several Merchants Take Out Additional Memberships—Various Matters Are Considered

The campaign for increased membership of the Chamber of Commerce was given a good start at the meeting of the retail merchants division of the Chamber of Commerce last night, when several of the leading merchants expressed their willingness and desire to support the organization more liberally by subscribing for additional memberships.

Among the firms who agreed to take out more memberships in the Chamber of Commerce were: C. J. Adams & Kirkwood, Emporium, Perkins-Shearer company, Whitney & Grinnell, C. W. Daniels Home Furnishing company and Kaufman and company. The matter was presented by Tod Powell, acting chairman of the membership committee, and E. L. Whitney of the finance committee, and met with ready response.

The meeting, which was held at dinner at the Acadia hotel, was the regular monthly gathering of the merchants division, and several matters of interest to the retailers were considered. Reports were made by the committee on advertising censorship, transient merchants and Saturday night closing, and these various matters were considered.

Among the members present at the meeting were: President R. S. Kaufman, J. C. Johnson, D. J. Pinkelstein, T. C. Kirkwood, W. Arthur Perkins, Ralph O. Giddings, E. L. Whitney, R. Downs, J. D. Hiltbrand, L. J. Newcome, M. B. Clowthorpe, C. W. Daniels, G. H. Brown, George F. Borst, C. C. Drake, A. Shapiro, H. K. Durall, J. L. Friedman, F. E. Kohler, E. D. Sommers, W. V. Sims, F. G. Hayner, J. Ray Lowell, W. E. Dener, C. P. Arcularius, Tod Powell, W. R. McCoy, H. J. Nathan, C. B. Lauterman, W. E. Frhofer, Isidor Polant, F. A. Sperry and M. Greenberg.

ANNEXATION MOVEMENT IS BEING REVIVED AGAIN

Now that Colorado City has been voted dry, the talk of its proposed annexation to Colorado Springs is again being revived. The annexation plan has been discussed semi-officially by the two municipalities for the last several years, but the fact that Colorado City was saloon territory caused some of those who favored the scheme of annexation to drop the project.

About a year ago a committee of Colorado City men held a conference with the directors of the local Chamber of Commerce, with a view of enlisting the support of that organization in the plan to annex, and the directors asked the city council to appoint a committee to provide a law, to investigate conditions and report the terms and arrangements under which the proposed merging of the two cities would be advocated. So far as can be learned, however, no report of this kind was ever made.

It is understood that the plan was dropped for the time being when it was learned that the law requires a majority in each city, not only of those voting on the question, but of all registered voters eligible to vote on the proposition, and difficulties were anticipated in getting out a full vote, expected that the project will be taken up now with new interest, and that it will be decided one way or the other.

Those who favor annexation point out that Colorado City probably would be given a lower freight rate if it becomes a part of Colorado Springs, which is a common point; that the cost of education would be materially reduced and its water system improved, and that it would be benefited in many other ways. The dividing line between Colorado Springs and Colorado City is largely an imaginary one, and the two cities are one to all intents and purposes, although each has its individual government.

W. K. ARGO AGAIN HEADS DEAF AND BLIND SCHOOL

W. K. Argo has been reappointed superintendent of the Colorado School for the Deaf and the Blind for another term of two years, and the teachers of the school have been reengaged. This action was taken at a meeting of the board of trustees, held at the school Thursday. Reports presented at the meeting indicated that the new dormitory under construction at the school will be ready for occupation at the beginning of the fall term, and showed that the institution is in fine shape in every way. The meeting of the board of trustees Thursday was a continuation of a biennial meeting for purposes of organization and appointments and a regular bi-monthly meeting.

Mrs. Jane Petterle of Golden and J. J. Schrader of Limon were present at the meeting Thursday as new members of the board, taking the places of Mrs. N. S. McDonald of Pueblo and L. R. Hubbard of Denver. Mrs. McDonald had seen 18 years of continuous service on the board, and had acted as its secretary for 12 years. She had missed only two of the meetings.

J. F. Humphrey of Colorado Springs was elected chairman of the board; C. J. Schrader of Limon, secretary, and A. J. Lawton of Colorado Springs, treasurer. Other routine business was transacted.

In connection with the election Tuesday, the Salvation army will hold a tag day to raise funds to make up a slight deficiency in current expenses. The deficiency exists because of the severity of last winter and the many demands made on the Salvation army during the cold weather. The Salvation army requests all its friends in Colorado Springs to accept the tags and help make up the fund.

Buffalo plans the erection of statues of Grover Cleveland and Millard Fillmore.

ANNUAL MEETING OF WORKERS NEXT WEEK

Thirty-Second Convention of El Paso County Sunday School Association Tomorrow

The thirty-second annual convention of the El Paso County Sunday School association will open tomorrow afternoon with a big rally at the First Christian church. All the schools of the city, Colorado City, Manitou and the outlying districts will be delegates in attendance at the meeting. The opening program will be specially arranged for teachers of the five Colorado high schools, including the new (and national) Methodist, Baptist, Presbyterian and Christian denominations will have full charge of the program.

The Teachers' Union will be the subject of the Rev. Charles Dean. The Rev. Allen S. Bush will speak on "The Teacher's Preparation of Himself." "The Teacher Preparing the Lesson" will be the theme of the Rev. Mr. Parker, and the Rev. Mr. Steidley will address the meeting on the subject "The Teacher Before the Class." At the close of these addresses there will be denominational conferences conducted by the above men. These Bible school experts also will occupy various pulpits for the evening service.

A special feature of the convention will be a missionary exhibit at which will be found hand work done in the local schools to be sent to the home and foreign fields to aid the missionaries in their work. Also plans, methods and helps for those interested in missionary work will be presented. This exhibit is in charge of Mrs. B. R. Reed.

An interchange of pastors of the local churches has been arranged, whereby they will speak before other schools in their work. Also plans, methods and helps for those interested in missionary work will be presented. This exhibit is in charge of Mrs. B. R. Reed.

Colorado Springs Boy Wins Oratorical Prize

The first honors at the Iowa State Prohibition oratorical contest, held at Ames, Iowa, last week, were won by Fred W. Ingvaldstad, a student at the Colorado Springs high school. Ingvaldstad, by a unanimous decision of the judges, won the prize, and he will represent Iowa at a central interstate contest to be held soon at Winfield, Kas.

Ingvaldstad formerly attended Colorado Springs high school and is now attending Simpson college at Indianola, Ia. His oration was on "The Legalized Outlaw" and dealt with the unconstitutionality of the saloon. He was in competition with representatives from half a dozen middle western colleges.

At the interstate contest at Winfield, Kas., Ingvaldstad will meet college orators from Colorado, Texas, Kansas, Nebraska, South Dakota and Minnesota. The winner of the contest will represent that group of states at a national contest in 1914.

NOVEL SHOW WINDOW AT LUCAS-DOWNS CO.

A new show window, different from any in Colorado Springs and patterned after a type much in use in Los Angeles, has been put in by the Lucas-Downs Sporting Goods company, 419 North Tejon street. The new arrangement, which places the show windows around three sides of a rectangle, gives 36 linear feet of window space. The work of building in this new window has been completed, and both the exterior and the interior of the store under the new arrangement are ready for inspection. An attractive window display has been installed. The construction of the show window was done by Honeymann and Auld, a local contracting firm.

CHILDLESS WOMEN

These women once childless, now happy and physically well with healthy children will tell how they got their babies. Here are the names and addresses—write them if you want to, and learn from yourself. They are only a few out of many thousands.

"Our first baby is a strong, healthy child. We attribute this result to the timely use of your Compound."—Mrs. E. J. OWENS, Oak Creek, Wis.

"I love my life and my baby's good health to your Compound."—Mrs. W. O. SPENCER, R. F. D., No. 2, Troy, La.

"I have three children and took your Compound each time."—Mrs. JOHN HOWARD, Wilmington, Vermont.

"I have a lovely baby boy and you can tell every one that he is a 'Pinkham' baby."—Mrs. LOUIS FISCHER, 32 Monroe St., Carleton Place, Ont., Canada.

"We are at last blessed with a sweet little baby girl."—Mrs. G. A. LAFERRE, Montegut, La.

"I have one of the finest baby girls you ever saw."—Mrs. C. E. GOODWIN, 1012 S. 6th St., Wilmington, N. C.

"My husband is the happiest man alive to-day."—Mrs. CLARA DABREX, 307 Market St., Buffalo, N. Y.

"Now I have a nice baby girl, the joy of our home."—Mrs. DOUGLAS, No. 17 So. Gate St., Worcester, Mass.

"I have a fine strong baby daughter now."—Mrs. A. A. GRIZZ, Perryville, N. Y., Route 44.

"I have a big, fat, healthy boy."—Mrs. A. A. BARNES, R. F. D., No. 1, Baltimore, Ohio.

SPRINGS CRIPPLE CREEK AUTOMOBILE ROAD TO BE SCENIC WONDER, HE SAYS

Supervisor C. W. Fitzgerald of Denver, who is in charge of the Pike National forest, spent yesterday in Colorado Springs, and said that preliminary surveys for one of the finest scenic roadways to be found anywhere have been completed through El Paso county in connection with the Colorado Springs-Cripple Creek highway. Bids for the work will be opened April 23, and the contract awarded at an early date.

One mile, and possibly more, will be built this summer, according to present plans, and as soon as additional funds are available the road will be pushed forward to Cripple Creek. The first mile of the road will be built by El Paso county, but it is uncertain when the highway will be completed, as the work depends entirely on the amount of funds to be advanced by the government and county and state officials. Ten per cent of the money received by the forest service is set apart by the government for road building in the territory from which funds are derived, and this money has been allotted by congress for the Colorado Springs-Cripple Creek road. How much the counties and state will add has not yet been ascertained.

Mr. Fitzgerald said yesterday that a road clear through to Cripple Creek, with a grade of not more than 8 per cent is possible, and the thoroughfare will be 16 feet wide, to insure plenty of room for automobiles or other vehicles to pass anywhere on the road. The present grade on the old stage road between Stratton park and Wade is 14 per cent. As soon as the new road is built through El Paso county, Supervisor Fitzgerald will consult with the Teller county commissioners regarding the stretch of road to be built through that county.

It is said that when the highway is completed it will be possible to ride clear around Pike's Peak either in an automobile or carriage or on horseback. The road through the national forest will connect at Cripple Creek with the highway running through Four Mile canon, via Florissant, the petrified forest and through the pass into Manitou, making one of the finest scenic trips to be found.

NEW RAILROAD SCHEDULE

Beginning tomorrow afternoon, a new time card will be in effect on the Short Line railroad, in order to make connections with the new train service on the Colorado & Southern to Denver. Train No. 8 on the Short Line will leave here at 10:35 a. m., instead of 10:40 a. m., arriving in Cripple Creek at 1:40 p. m., instead of 1:55 p. m. Train No. 4 will leave Cripple Creek at 8 p. m., instead of 8:15 p. m., arriving in Colorado Springs at 8:45 p. m., instead of 9:05 p. m.

Stopped Those Pains

Copper Hill, Va.—Mrs. Ida Conner, of this place, says: "For years I had a pain in my right side, and I was very sick with womanly troubles. I tried different doctors but could get no relief. I had given up all hope of ever getting well. I took Cardui, and it relieved the pain in my side, and now I feel like a new person. It is a wonderful medicine." Many women are completely worn-out and discouraged on account of some womanly trouble. Are you? Take Cardui, the woman's tonic. Its record shows that it will help you. Why wait? Try it today. Ask your druggists about it. Adv.

ALL HIGH SCHOOL BIDS ARE REJECTED

The school board, at a meeting last night at its rooms in the De Graff building, rejected all bids on the construction of the new buildings at the high school. The board is still undecided on the next step to take at this time, and will consider the matter at a meeting within the next few days. The action last night, however, means that new bids will be called for in the near future.

There was a slight irregularity in the low bid, submitted by the F. K. Kirsch Lumber company of Denver, in that the alternate estimates called for one for the use of stone and the other for the use of terra-cotta in certain parts of the construction, were not given. There is a strong sentiment locally for the letting of the contract to a local firm, but the estimate of the lowest local bidder was about \$5,000 more than that of the lowest bid submitted. In view of these facts and because the various members of the board could not come to an agreement on certain matters connected with the estimates, it was thought best to clear the boards entirely and give all the bidders a fair and even start again.

The date of the next meeting of the board has not been definitely fixed. In the meantime, the various members of the board are individually considering the matter, as all of them have not made up their minds as to the course they wish to pursue.

La Junta Minister to Talk Here on World's Christian Citizenship

The Rev. E. A. Crooks, a minister of La Junta, and connected with the National Reform association and the Second World's Christian Citizenship conference, to be held in Portland, Ore., June 29 to July 6, is coming here next

REV. E. A. CROOKS.

Of La Junta, who will speak before the Ministerial association Monday on the Second World's Christian Citizenship conference to be held in Portland, Ore., June 29 to July 6.

Monday to address the Ministerial association at its regular meeting. Dr. Crooks is referred to as one of the most aggressive men in the ministry, and will have much to do with the conference to be held in Portland. His address here will be on the subject of that gathering.

DUNNING OUT OF BED

Manager W. S. Dunning of the Antlers hotel was able to "get up" and about yesterday for the first time since he was stricken with pneumonia, three weeks ago. He left his apartments in the hotel and came down to the lobby for a few minutes yesterday afternoon.

MANY TOURING PARTIES ARRIVING IN SPRINGS

A Raymond-Whitcomb touring party numbering 35 reached here at 6 o'clock last night over the Denver & Rio Grande railroad in a special train from the west, registering at the Cliff house in Manitou. It will remain in the Pike's Peak region until Monday. Two other special parties are to reach this

Raven and Beacon Hill Company Issues Report

Instead of calling a meeting of the stockholders of the company, at considerable expense, the directors of the Raven and Beacon Hill Gold Mining company have issued a circular letter in explanation of the condition of the company, accompanied with a statement of the accounts of the company from April 10, 1912, to April 10, 1913. Practically all the work that has been done in the last few years has been done by the Elkhon Consolidated Gold Mining company, under a lease granted October 10, 1911. They are operating on blocks one and two of the Beacon ground, on the seventh level. During their work the Elkhon company has shipped 1,740 net tons of ore from this ground, and has paid the Raven and Beacon Hill company \$4,175.00 in royalties, according to the letter. The average value of the ore shipped is about \$21.50 a ton.

One other set of lessees, Rustad and Betton, are working on blocks 3, 4, 7 and 8, at a depth of 503 feet, through a shaft on block 8. During the year, April 10, 1912, to April 10, 1913, the Raven and Beacon Hill company has received \$5,790.75 in royalties, and now has cash on hand the amount of \$3,158.31. The treasury stock amounts to 330,018 shares, and 15,475 shares of treasury stock are being held for exchange against shares of Eleanor, Echo and Dorothy.

The Raven and Beacon Hill company has not, according to the letter, paid its taxes for 1912 because of the alleged exorbitant valuation for that year. Efforts are being made to have this value reduced.

W. W. Price is president of the company, and W. B. Price, secretary and treasurer. The directors are: W. W. Price, John T. Hawkins, C. A. Sheetz and L. G. Carlton.

city within the next few days, the first at 10:55 o'clock this morning. It numbers 24 people, including in a special Pullman over the Rio Grande. The party comes from California, and will leave Colorado Springs this afternoon for Denver and the east. The third party, which hails from Granite, Ill., is 23 in number, and will reach this city next Wednesday morning, traveling in a special Pullman over the Denver & Rio Grande. The party will leave Colorado Springs that noon for San Francisco.

Agents Say

"EDDIE FOY"

There will be new jokes and laugh-
ing catch phrases entering into every-
day conversation after next Monday
evening, when irrepressible Eddie Foy,
in his new musical fun maker, "Over
the River," which Werba and Luescher
have produced on a big scale, comes
to the Grand Opera house.
The spirit of maddest frolic perme-
ates every scene of this production,
which comes here direct from its long
run on Broadway. Its unconvention-
ality is said to be the strong note in
its appeal to an audience. "Over the
River" is described as not only a
great play, but it is a great musical
piece, filled with tuneful songs that
start everyone to humming or whis-
tling the "catchy" melodies. Mr. Foy
has been surrounded with a large com-
pany, well chosen to fill the various
amusing roles, and also has a great
madcap chorus, chosen quite as much
for its musical superiority as for its
dancing ability.This piece derives its somewhat
unique title from the fact that in New
York there is a slang designation for
the prison on Blackwell's Island. Con-
victs sent there are said to be doing
time "over the river." From this it
is to be inferred that the plot of Mr.
Foy's new play deals with this particu-
lar prison. As a matter of fact, Mr.
Foy plays the role of a man about
town, who enjoys himself so freely on
a certain night that he wakes up un-
expectedly and finds himself serving
30 days "over the river" for disorderly
conduct.

GAMMER GURTON'S NEEDLE

A realistic comedy of country life, full
of rollicking fun, which is the play that
Pearsons Literary society has selected
for production this year. Written for
college boys to act, 350 years ago, it is
just the sort of thing that college boys
can act admirably today. It was first
presented by the students of Christ's
college, Cambridge, in 1558, the yearGRAND OPERA

News of Local Courts

Direct information on two charges
of grand larceny were filed yesterday
by the district attorney's office against
Elmer Oatman, who has been held in
the county jail since his arrest last
week. On one charge, Oatman is held
for alleged theft of two checks in the
amount of \$122.43 from J. W. Cobb,
manager of the Penrose ranch, near
this city. On the other charge, he is
held for passing a \$35 check twice.
Direct information was filed against
Lizzie Vinson, charging her with con-
ducting a disorderly house in Colorado
City.Oscar Edgall yesterday appealed to
the county court from an adverse de-
cision in Justice Dunnington's court
in his suit against Frederick R. Has-
tings for \$104.44. In the justice court
it was decided that Hastings was not
indebted to Edgall. Judgment was en-
tered against Edgall for the costs of the
suit.Judge Morris yesterday excused the
jury in the district court until April 22.H. Arnel was fined \$30 in police
court yesterday for intoxication and
committed to jail in default of pay-
ment. L. R. Frakes was held for in-
vestigation. J. Acre, who was re-
cently fined in Justice Gowdy's court
and ordered out of the city, is held in
jail and will be turned over to the
justice court.Dr. Edgemont D. Welsh, who recently
was found guilty of perjury by a jury
in the district court, yesterday filed
a motion for a new trial.John Flynn was sentenced to five
days in the county jail yesterday by
Justice Dunnington on a charge of dis-
turbance. He was charged with start-
ling trouble at the Kennebec hotel and
assaulting Sam Stewart, the propi-
etor.

CUBS' PITCHING STAFF IS SHATTERED AND CHICAGO FACES SEASON WITH POOR STRING

Cheney and Lavender Best in the Lot, but Neither Has Shown Good Form to Date

By IRVING VAUGHAN.
CHICAGO, April 11.—With the spring junket now a matter of history, and the 1913 season two days old, the Cubs face the staggering problem of tackling a big league pennant race without the assistance of more than one, or, at best, two reliable pitchers. Since the team went into training at Tampa seven weeks ago, Evers has devoted his energies to developing a strong hurling staff, but, judging from appearances, the men have not benefited greatly. Some of them are not of major league caliber to start with. The fact that Overall has signed does not seem to cut much figure at the start of the season.

Right now Larry Cheney and Jimmy Lavender are the only pitchers who could go into a game with the odds favoring his coming out the winner. Lavender has been erratic on the trip, but next to the star of the staff, the Montezuma lad is the best of the bunch. Other men in whom the new Cub manager has placed a lot of faith are Reulbach, Ritchie, Powell, and Humphries, but at this writing none of the four could start up and go the route without suffering a stiff beating. Reulbach is bothered so much by lack of control that he has to stick the ball over without putting anything on it. Powell has had a sore arm that has bothered him for a month, and the same is true of Humphries. As for Ritchie, he never did show much, except when it came to tripping the Giants, and he can't do that little job often enough to deserve a job.

There is little hope for any of the recruit flingers coming through with enough class to warrant regular jobs. Powell and Humphries have shown nothing much to date, but on their past performances will be held until they can throw off the sore winds that have hampered them. Humphries had his arm spoiled a couple of years ago by being overworked at Philadelphia and it will take some time to overcome this. Powell should be a corking good pitcher with the assortment of twisters. But once and a while he bores out, but he can't do himself justice right away.

Evers would gladly stop talking to umpires for one day at least if he could locate a good left-hander to add to the staff, but from indications it

OVERALL SAYS MURPHY'S INDUCEMENTS TOO GOOD TO BE OVERLOOKED THIS YEAR

By ORVAL OVERBY.
LOS ANGELES, Cal., April 11.—Owing to the fact that there may be interest in knowing why I have signed a contract to pitch for the Cubs again, I will explain my reasons. I received a telegram from Charles W. Murphy from Chicago on Sunday saying he would send a particular friend of his out here to call on me, and that he (Mr. Murphy) hoped we could come to some agreement.

Frank O'Day, the veteran umpire, arrived in Los Angeles on Monday and phoned that he wanted to see me, and that he was in town as Mr. Murphy's representative. I met O'Day at his hotel more through curiosity than anything else, never dreaming that it would be possible to come to terms. I was astonished at what O'Day was authorized to offer me. I told O'Day what I must have if I ever went back into baseball. O'Day said that Murphy assured him that he had no grievance whatever, and that if I would sign Murphy would see that I did not regret it, and would have no cause for complaint.

I was given more than I asked in the matter of salary and all the time I felt was needed to get into condition. So qualifying were the inducements offered me to return to baseball that I would have been foolish to refuse them. It will seem good to be back with the old bunch again. I hope that I will be a factor in keeping the Cubs well up in the league race. During the two years I have been out of National league ball I have taken good care of myself. I anticipate very little trouble in getting back into my old form and will go east determined to give Johnny Evers and the Chicago Cubs my very best efforts.

Despite the fact I have signed with the Cubs, my literature in connection with my correspondence school of pitching, now being mailed to subscribers all over the country, will go on as if I were in Los Angeles. From the inquiries and orders received, this pitching course seems to be what the young pitchers have sought.

FAVORITES IN AMERICAN LEAGUE RACE

TERRORS AND CENTENNIAL WILL OPEN SEASON TODAY

Now that the demon Deal brothers, F. and V., are back in the High school baseball lineup, those Terrors feel pretty sure and persons who engage in the fortune-telling business at the slightest provocation already look upon this year's aggregation as the champions of the universe.

The Terrors will have a chance to sparkle this afternoon, for they are scheduled to play Pueblo Centennial at Washburn field at 3 o'clock. Today's game marks the opening of the interscholastic season here and the local High school hopes to start right by taking Pueblo into camp. The presence of the Deal brothers will undoubtedly add to Terror strength to a great extent, and on paper the local lads look as good if not better than any other aggregation of interscholastic in the state. For Deal is a finger of ability, and if he is in form today should be able to shade any boyman that Centennial has to offer.

The Terror camp has plenty of confidence so far as the game is concerned, but confidence has lost many a pinch contest in this town and Pueblo may have an ace in the hole.

It was learned last night that Pro. H. A. Nye, the well-known Terror manager, is procuring a suitable schedule for this season.

GUNBOAT SMITH BEATS RODELL IN 10 ROUNDS

NEW YORK, April 11.—Gunboat Smith, the California heavyweight, outfought George Rodell, the floor pugilist, in a 10-round contest here tonight. The foreign fighter put up a game battle, going to the floor eight times from Smith's hard punches, but resuming the fight each time.

Rodell outpointed the westerner in the first three rounds and drew blood from Smith's nose and mouth in the opening round. Rodell forced the pace in the ninth and tenth, but in the latter round he took a count of nine from a right swing.

SIBERIAN WOLF TEAM OF 21 LEADS RACE CLASSIC

NOME, Alaska, April 11.—The All-Alaska sweepstakes dog team race over a 42-mile route developed late today into a contest between John Johnson, driving his team of 21 Siberian wolves, and Fay Deizene, to be first in the turning point at Candle, 206 miles from Nome.

Johnson's dogs, worn by the steady driving, slackened their pace toward night, while Deizene's, refreshed by a rest at Haven, rapidly made up the time gained by Johnson this morning, and were pressing the leader hard.

Scotty, Adian, driving the Durling-Alan team, which won the last two-all-comers events, rested at Gold Run, from Gold Run to Candle and back to Gold Run without a stop.

Johnson has kept constantly going, without a rest, by taking out one or two dogs at a time and carrying them on the sled until they have been refreshed. If he can keep going the entire route without a stop, he undoubtedly will break his own record of 74 hours, 14 minutes and 22 seconds, made in 1910.

Kaufman Won Short Fight From Lester

SAN FRANCISCO, April 11.—At Kaufman of this city, won a decision tonight over Jack Lester of Cle Elum, Wash., in a four-round boxing contest.

Above, left to right—Clark Griffith and Jake Stahl. Below—Connie Mack. Baseball dopesters the country over predict that the fight for the 1913 pennant in the American league will be one of the most closely contested affairs in the history of that organization. Although Jake Stahl maintains that his world's champion Boston Red Sox are 25 per cent stronger than last season, experts declare that his team will be no stronger than those of Connie Mack at Philadelphia and Clark Griffith at Washington.

Mack's lineup is practically the same as that which won the world's championship series from the Giants in 1911. The elongated manager attributes the failure of his team to land first place in 1912 to the fact that his players thirst for victory had been too thoroughly quenched by the successes of 1910 and 1911. He declares that last year's setback will make his team come back stronger than ever this season.

The miracle performed by Clark Griffith in 1912 in driving the Washington Senators from seventh to second place in one season, finishing at the heels of the Red Sox, has caused many to believe that the feat of jumping his team from second place into the championship could not possibly be a harder task.

'Tod Powell Invited to Ute Bear Dance

Tod Powell, inventor of the Ute tango, has received a pressing invitation to go to Ignacio, the southern reservation of the Utes, and participate in the annual bear dance of the tribe. The dance is one of the big events at the reservation and this year several hundred braves from the Apache reservation will join in the festivities for the first time.

Buckskin Charlie will act as dance chief, a position formerly held by Tio Jim, who was killed on a train when the Utes were returning to their reservation last summer after attending the Shan Kive. Mr. Powell was generalissimo in charge of the tribe during its stay here, participating in all the dances of the Indians, and performing in such a really Indianesque manner that the braves wanted to carry him off to Ignacio and make him a member of the tribe. Mr. Powell pleaded pressure of business at the spot, and also that he was badly needed right here as a civil leader, and the fact that he is visible daily is sufficient proof that the Utes failed in their plot to kidnap him.

CUTLER GOES TO PUEBLO TO PLAY CENTRAL TEAM

While the High school and Centennial teams are crossing bats at Washburn field this afternoon, the rejuvenated Mr. Gail, who is guiding the destinies of Cutler academy this year so far as baseball is concerned, will chaperone his proteges to Pueblo to engage the Centrals in spirited combat. This trip is taken for the sole purpose of opening the interscholastic baseball season in the south.

The trip carded for Pueblo this afternoon is one in which unofficial experts are not backing their opinion with anything more expensive than conversation. Here, as elsewhere, the weather for the last two weeks has not been particularly of a brand suited to aspiring athletes trying to get into trim, and Cutler academy is an unknown quantity in a baseball way. Mr. Gail has been teaching the art of hitting them where they ain't, the fallaway slide and how to deliver a four-ply knock when all the corners are loaded, but whether Cutler can deliver in an actual bout remains to be seen.

Dickinson, who will be on the hill for the home team, should break even with Central's pitcher, if he is right, and his team gives him stiff support. Little is known here of Central's strength, but the team can be depended upon to put up a good game on its own field.

ULLRICH IS REELECTED GOLF CLUB PRESIDENT

E. J. Ullrich has been reelected president of the Colorado Springs Golf club for a third consecutive term, and under his direction the club proposes to continue if possible the steady and substantial growth that it has experienced for the last few years. Other officers elected by the directors are: F. M. P. Taylor, vice president; Willis B. Armstrong, treasurer, and John O. Spicer, secretary. President Ullrich is preparing the various standing committees for the year and the list probably will be submitted to the directors for confirmation next Tuesday.

The reelection of President Ullrich meets with general approval among the club membership, and it means, according to those in close touch with the affairs of the club, a continuation of its progressive policies. It is probable that four holes will be added to the course this summer, giving the members and visiting golfers an 18-hole course.

English Champion Is Doing Hard Training

NEW YORK, April 11.—Freddie Welsh, the English lightweight champion, started training yesterday and is going to get into shape right away for a busy campaign in the ring. He cancelled the work he had booked for the "vaudeville" stage, as the lure of the ring was too strong for him, and within three weeks time will get into the ring. A few days he will confine himself to road work in Central park, but on the first of next week will take up gymnasium work at the New West Side Athletic club.

Welsh has been simply inundated with offers to box. He is going to meet every lightweight that wants action, first come, first served, big fish and little fish, from Ritchie down to Battling Keefe. There is only one stipulation, they must be lightweights. Since beating Wells and McEwen, Welsh had five battles in England, three of them, all 20-rounders, in seven days. He kept in such good condition under this system that he has decided to follow the same course here. He has been offered a dozen matches and will probably start off in Philadelphia.

BASEBALL MEN HAVE REACHED CONCLUSION THAT INDIVIDUAL COACHING IS BEST WAY

Managers of Big Clubs Putting Theory Into Practice, Confident of Good Results

Practically every baseball manager in the business today has come to the conclusion that the individual coaching system is by far the best way to get results. This applies particularly to the case of youngsters trying to make good in the major leagues.

Connie Mack, though himself generally conceded to be able to coach either green or semi-seasoned men for any position on the field, has some voters on the club upon whom he depends for the full development of the fundamentals.

Harry Davis is an invaluable man for this character of work. He knows the infield game from alpha to omega with a return ticket. He can take a man who wants to learn and is willing to learn the infield and make the best of him. Of course, if the native ability isn't there Davis would be as far from bringing about the hoped-for results as any one else. On the other hand, there are a lot of managers now who cannot take a man who has the natural stuff in him and bring it out in the major league way.

In the same way Danny Murphy is paying particular attention to the men who are trying for outfield positions with Mack. To be sure, recent reports are to the effect that Murphy is general in charge. At the same time he is letting Davis work for him, and he is letting Ira Thomas, the veteran catcher, work with the young pitchers who are trying to get the "best" of him. As well as lord of the situation when he is working behind the bat in a game.

Just as Connie Mack is showing what he thinks of individual coaching by his actions, Hughie Jennings is following suit to a lesser extent. Jennings, however, is a firm believer in the system of individual coaching. He thinks that there ought to be on every well organized baseball club a veteran catcher, pitcher, infielder and outfielder.

Jimmy Barrett, who with Jennings is strong for the four-man system, is here in the way Barrett is quoted on this subject: "All the big football eleven have coaches for every position and why shouldn't ball clubs do the same thing? The big leagues put the O. K. on the scheme to a certain extent when they engage pitchers and catchers. But why stop there? Why not make it complete?"

"Any ball club would save a lot of money hiring tutors for the infield and outfield positions. A recruit, if he had big league possibilities, could learn more during the training season than during the entire regular season, and if he did not, have the ability to find it out before the season opened. The crowd of 14,000 spectators at the game between Cleveland and Chicago yesterday was a good illustration of the fact that the Cleveland team was the better team."

Baseball Yesterday

CLEVELAND 3; CHICAGO 1.

CLEVELAND, April 11.—Vean Gregg hit a puzzle to Chicago's pinch hitters today, and Cleveland won the opening game of the season here, 3 to 1. A combination of hits and errors gave Cleveland a two-run lead in the second inning, and they never were headed. Jackson Cleveland's pitcher made two doubles and a triple in three times at bat. Clete, who replaced Scott for Chicago in the seventh, held Cleveland hitless. Threatening rain clouds and a chilly breeze failed to dampen the ardor of the faithful crowd of 14,000 spectators.

R.H.P. Chicago 0 0 0 0 0 1 1 1 2 2 Cleveland 0 2 0 1 0 0 0 3 6 2 Scott, Clete and Shaik, Gregg and Land.

ST. LOUIS 3; DETROIT 6.

ST. LOUIS, April 11.—St. Louis and Detroit engaged in a slugging match today, the local winning, 3 to 2. Lou Gehrig led off with a home run, scoring five runs.

Detroit knocked Hamilton out of the box in the eighth, scoring two runs off four successive singles and a double. Baumgardner, who relieved Hamilton, was unsteady. Crawford's hitting and Vint's fielding went the features. Score: St. Louis 3, Detroit 6. Hits—Hamilton 2, Crawford 2, Vint 2, Gehrig 2, Scott 1, Clete 1, Shaik 1, Gregg 1, Land 1.

Sophomores Win in Class Track Meet

The sophomore class of the High school, with a long lead over their nearest opponents, the juniors, won the high school interschool track meet yesterday afternoon at Washburn field. The scores were: Sophomores, 51; juniors, 34; seniors, 23. The freshmen entered one man in the high jump, but he failed to get a place.

The individual stars of the meet were "Eel" Bubank, a senior, and Sweeney, a sophomore, with 15 points each, and Clarence Cheese, a junior, with 13. Bubank would have received 16 points had there not been a rule against any one man competing in more than three events. He took first in all the weight events—the shot put, discus, throw and hammer throw—and took third in the 100-yard dash. His point for the 100-yard dash was not counted.

YANKEE YACHT CLUB APPLAUDS SIR THOMAS

LONDON, April 11.—Sir Thomas Lipton is deriving great pleasure from a cablegram received by him today from the Yacht Racing association of Massachusetts, which reads: "The Yacht Racing association of Massachusetts applauds the sportsmanship of your unconditional challenge. Wish you well-sailed match in 1914."

COLLEGE BASEBALL

At Nashville—Michigan university, 14; Vanderbilt, 2.

Lagniappe

Under the heading "Sporting Notes," Glumoy Gus dished up the following facts for fans yesterday: "George Hawk was arrested yesterday in Colorado City on a charge of non-support. Trial of the suit of Mrs. Ellen Dwyer against George A. Taff for \$5,000 for the death of her husband, Edward Dwyer, was continued indefinitely. H. A. Robinson filed suit for \$300.00 against the Fountain Land & Investment Co. in the district court. Hawk's two kids were overhauled. H. Arnall was fined \$20 in police court for being intoxicated and Dr. Welch found guilty of perjury, filed a motion for a new trial.

Now that local game wardens have received their commissions, and understanding that the game laws will be enforced, sportsmen will do well to become familiar with the new order of things and govern themselves accordingly. A word to the wise, etc.

One reason why so many people decline to go duck hunting is because they haven't lost any ducks.

According to a news headline the curfew law is to be enforced, and it looks like indoor sports for boys and girls under 16 years of age after 9 p. m. The request to keep the youngsters in comes from the city's recreation and amusements committee.

Connie Mack has decided to discharge all of his scouts, but anyway Connie's best scout was Connie Mack.

If the weather remains clear and warm this afternoon, and it doesn't rain, it will not be necessary to say in tomorrow's paper that yesterday's ball game was postponed.

Since the Cubist art outbreak it is understood that Johnny Kling is more glad than ever that he quit the Cubs.

SATURDAY, APRIL 12, 1913.

OUCH!

SAM JONES used to say that if you hear a cat howling on the back fence at night, and you shy a bootjack in its direction, and immediately the cat howls ten times louder and harder, it is a safe assumption that you have hit the cat.

Yesterday The Gazette asked the perfectly natural question, "Who is paying for this campaign against McKesson?" Neither in the question itself nor in the context was there the slightest mention, reference, insinuation, intimation or innuendo, direct, indirect, implied, suggested or inferred, which could involve, implicate or otherwise connect the esteemed Evening Telegraph with this question. But if anybody doubts that this bootjack thrown into the darkness hit the cat squarely in a tender spot, let him read the leading editorial in last night's Telegraph.

Wow! The pain is simply unbearable. In the first place, our contemporary misquotes the question, and makes it read, "We wonder who is paying for these articles on the front page of the Telegraph?" an idea which, of course, never entered our mind! And then "The insinuation is that the Electric Company is paying for this space."

The very idea! How could anybody even dream of such a thing? Far be it from us to entertain so unworthy an idea even for a fleeting moment. Then where did the idea originate? Ah, we have it! It must have been it could only have been, in the super-sensitive conscience of the Telegraph. Hence, the frenzied assertion that the question which The Gazette didn't ask "is a nasty, contemptible, unneighborly and unmanly thing to suggest."

Hamlet, wasn't it who observed that "conscience doth make cowards of us all?"

THE TRUTH ABOUT THOSE DEEDS

THE campaign lie is a historic American institution which dates from the beginning of the republic. It is expected by the people whenever political activity becomes acute, and being expected it is received with the usual discount.

The present municipal campaign is no exception. Judge McKesson, who in the first election distanced his nearest competitor by 855 votes, is now the victim of the usual campaign vilification which the evening paper conducts against any candidate espoused by The Gazette. McKesson is sitting serenely on to victory, and as the evidence of this fact daily becomes more convincing the Telegraph redoubles its puerile efforts to discredit him.

For more than a week past the evening paper has repeatedly perjured itself in an effort to show that Judge McKesson is a mining stock swindler. But on Thursday last it overstepped the limit. It boldly asserted that he never had transferred to the Nevada Portland Gold Mining Company the lands which were represented to purchasers of stock as belonging to that corporation. This, in effect, was a charge that he had received money for stock in a company which owned no property.

On the first page of today's Gazette we print a photographic facsimile of The Telegraph's charges, and beside it photographs of five deeds whereby Judge McKesson and his associates transferred the property in question to the company. Yesterday evening the Telegraph "hedged." It had learned, since the previous day, that these deeds had been executed, but asserted that they never were recorded. The truth is that each deed bears the official stamp of the recorder of Esmeralda County, Nevada, showing that they were filed for record on April 18, 1907.

The political history of El Paso County shows many disreputable transactions, but it is doubtful whether it can show a more definite and clear-cut case of simon-pure blackguardism than this effort of the Evening Telegraph to ruin the reputation of Judge McKesson.

It would have been a simple matter for the Telegraph to ask Judge McKesson as to the truth or falsity of its suspicious before printing its libelous statements. The

deeds were here in Colorado Springs and could have been seen for the asking.

POLITICS, BUSINESS AND LAW

FOR several days The Telegraph has printed a quotation from candidate Thomas at the head of its editorial column, a la Professor Munyon. It says: "The administration of city affairs is a business proposition and not a legal question." This weighty utterance was put forward, as an excuse, just after Mr. Thomas had said in a letter to The Gazette, in reference to the legal question between the City and the Electric company, "I frankly admit that Mr. McKesson is far better informed upon them than I am myself."

Mr. Thomas' error lies in his inability to distinguish between a legal question and a business proposition. Apparently he does not know where one ends and the other begins. He thinks that the Jackson franchise is purely what he terms a "business proposition," without any legal aspect whatever, and he would treat it as such.

Of course this schoolboy method of handling the subject would get the City into trouble from the very beginning. The same thing is true of the pending suit over the City's right to buy current at the "most favored customer" rate, and of the proposed purchase of the Empire company's holdings. All of these are business matters, but they are also legal matters, and it is merely silly for Mr. Thomas to affect an airy disregard of their legal aspect—especially when everybody knows that this disregard is based on his own ignorance of the legal side.

But after all, what evidence is there that he knows any more of the business side of the questions than of their legal side? Mr. Thomas is not a business man, any more than he is a lawyer. He has had no experience in either field. He confesses his complete ignorance of all litigation affecting the water system, although somebody ought to have told him before now that it is a very important subject. By the same token he ought to confess his ignorance of the business aspect of these questions.

In his letter to the Open Parliament he declared that his experience as an architect gave him the wisdom to discern that water leaks out of Reservoir No. 4 because the bottom is of gravel. Strangely enough, there are other people, untutored in architecture, who have also observed that water will leak through gravel, but they are not running for office on the strength of the wisdom thus revealed. But in this case the incident is noteworthy because it shows what Mr. Thomas thinks is the sort of equipment which fits him to be mayor.

Colorado Springs needs a man at the head of its government who knows the details of its municipal affairs, who knows the practical workings of all the departments, and who is thoroughly familiar with the all-important litigation affecting its water system. McKesson has had the experience and training which have given him this knowledge. Thomas frankly admits his unfamiliarity with the legal questions, and has given no evidence of familiarity with the other questions.

On this showing which man is better fitted to be Mayor of Colorado Springs?

OPEN PARLIAMENT

[All letters intended for the Open Parliament must bear the name and address of the writer, not necessarily for publication, but as an evidence of good faith. Controversial letters will not be published without the signature of the writer. Communications for this department should be limited to 400 words and should be free from personalities.]

A DEBATE ON SOCIALISM.

To the Editor of The Gazette:—All students of modern problems are agreed that the paramount issue of the day is Socialism. This being the case, a number of Socialists came to the conclusion that a four-cornered debate on this topic would be timely even in a contentious community like Colorado Springs.

The subject under consideration is, "Resolved, That Socialism is the only system of society that can solve our present day problems." The speakers debating the question have all made a study of economic and sociologic conditions in America. There is Professor W. F. Riser of Toledo, O., who wrote a number of books on the subject of Socialism. H. C. Darragh, the second speaker in the affirmative needs no introduction as he is well known as one of the most fervent speakers on the Socialist platform. The negative will be upheld by Mr. W. W. Galt, the well-known newspaper man and speaker, and Mr. John H. Weil, the chairman of the El Paso County Progressive club who is not afraid to debate a whole legion of opponents to the Progressive cause.

Judging from the scholarly individuality of each contending speaker, the debate promises to be the most interesting intellectual battle that has taken place in late years in the Pikes Peak region.

The debate will be held at the Empress theater next Sunday evening, April 13, at 4:45 o'clock. The admission is free and readers of The Gazette are cordially invited to take part in the deciding of the debate which will be by a rising vote in favor of the lucky winner.

A. G. BERNAT,
Secretary of the Socialist Forum,
Colorado Springs, April 12.

FROM OTHER PENS

PROTECT BIRDS BY TARIFF.

A piece of genuine protection is being sought from the tariff-makers by persons interested in sav-

ing certain birds from further destruction. The proposal is to amend schedule N by prohibiting the importation of the plumage of wild birds, except for scientific purposes. A precedent for this action is found in the present tariff act, which prohibits the importation of the eggs of game birds. In behalf of the amendment, it is urged that bird slaughter is greater than ever before, so that in another decade a dozen of the most beautiful species will be exterminated, unless the war upon them is checked. The United States is the largest market for wild-bird plumage, and the closing of our ports to this trade would probably be followed by similar action in London and Berlin. Australia has already led the way in this respect. Most interesting and not least important of the reasons advanced for the prohibition is that it would arouse little opposition either from women wearers of such plumage, or from milliners, since ostrich plumes, and fancy feathers of domesticated fowls will be available, to say nothing of what the art and ingenuity of the milliners may devise.

THE PRESIDENT'S SPORT.

From the New York Tribune:—There will be a real sigh of relief over the news that your learned president has reconsidered his decision and has accepted membership in the Chevy Chase club. Reciting limericks and riding a bicycle seemed hardly the sports to keep a hard-worked executive human.

All outdoor America, and that is to say all America, has been worrying over this problem. And now that the math question has been settled, and settled right, the quarrel among the advocates of the several games can begin.

If a president would only play the game that he should! What a calm, dispassionate, just, and Theodore might have been had he spent his time on the golf links instead of the tennis court! And who knows how much more popularity Mr. Taft would have won by a little agility at the colonels' camp?

As for Mr. Wilson, so long as it is not croquet, we shall be delighted to support him in anything. We hate to say it, but there is a lurking look of croquet about Mr. Wilson's face, and we shall always have certain dark suspicions until we hear of his plunging headlong into some kind of sporting fray. On the whole, therefore, we cast our vote for tennis as the president's sport for the ensuing four or eight years, as the case may be.

THE SAN FRANCISCO EXAMPLE.

From the Kansas City Star.

It is recalled that the well constructed buildings of San Francisco withstood the shock of the earthquake in 1906. An example of this was shown by the slender 18-story tower of Cal building, whose steel skeleton was hardly affected while surrounding buildings of timber material or of faulty construction (such as the city hall) collapsed or cracked.

The lesson of the earthquake (apart from that of the succeeding fire), was so apparent that San Francisco did not hesitate to rebuild its area of destruction with great, tall buildings—but, it completely revised its building code and compelled the strongest construction of steel and reinforced concrete.

Our civilization can continue to be bluffed by "the elements" or it can be the master of its own fate.

PILING IT ON.

From the Wahsatch, Idaho.
Among many other things it is alleged that the defendant had an unkind temper, and that she subjected the plaintiff to cruel and inhuman treatment on several occasions attempting to take his life, and also making threats to execute him.

Negatives and Positives

By RUTH CAMERON.

Are you a negative or a positive?
The other day I went into a book shop to buy a birthday present for a small nephew. After some difficulty I corralled a clerk from behind some bookshelves and stated my errand. "What have you in books about animals, for very small children?"

The clerk turned a cold and inquisitive eye upon me. "We haven't anything at all," she said. She added nothing further and there was a finality in her manner which made me feel as if I had run up against a blank wall.

I went to another shop. A pleasant-faced clerk came forward to greet me. I asked the same question. She seemed much interested, as if I had propounded a most absorbing problem to her. "Well, let me see," she said. "I don't know that we have anything in stock just appropriate, but I'm sure we can order something. Or perhaps I can find something else that will do. Let me bring you a catalogue."

Minutes that clerk had deftly persuaded me that a book of fairy tales would do quite as well as the other book, and had sold me an expensive copy.

Now the first clerk was a negative; her suggestion was entirely negative. She told me what she didn't have, but not what she did have.

The second clerk was a positive. She passed lightly over the negative and at once began to radiate positive suggestion. And she got the sale which the other clerk might have just as well had.

The shops are an excellent place to study the positive and negative types, but clerks are by no means the only people who attract success by their positive suggestion or repel it by negative. That is what we are all doing every day.

For instance, two boys go hunting for a position. One of them approaches the prospective employer by saying, "I don't suppose you want a boy to do office work." The other says, "Can you use a bright, energetic boy around your place? I'm sure I could make good." You can imagine which gets a position first.

The mother who is a negative is always telling her children what not to do. "Don't do this," and "Don't do that," she cries from morning until night. Like "Dorothy Don't," her children almost wonder if that dread word isn't part of their names.

On the other hand, the mother who is a positive uses the negative as little as possible. Instead she is full of positive suggestions. She knows that it is far better to direct the baby's attention by a harmless toy than to snatch the harmful one away from him, better to suggest a desirable play to a child than to ban the undesirable one. If a child is excited by the positives who scheme and plan and construct and create, and the negatives who simply exist.

Which are you, a negative or a positive?

Ponderous Personages

HENRY CLAY.

By GEORGE FITCH,
Author of "At Good Old Sivah"

Of all Americans who flourished in the first half of the last century, there were none more ponderous than Henry Clay. For 26 years he was the biggest man in his country and six times during that period he stood around, hat in hand, and watched some smaller sized American being inaugurated president.

Clay was born in Virginia, April 12, 1777. His father died when he was five and soon afterwards he began supporting his family in true presidential timber style. At 15 he was a clerk at Richmond. At 21 he was a lawyer in Lexington, Ky., and thereafter he gradually came with giant leaps.

Clay entered politics as soon as he had bought his office desk. He immediately became known as a fine orator.

"Postponed the civil war for thirty years."

He acquired the art by practicing in the cornfields instead of upon the after-dinner prisoners, and thus won the love of all. At 23 he was a legislator and at 29 he was senator of Kentucky. Everyone predicted that he would be president as soon as he was old enough and there was some criticism of the constitution, because it compelled him to hang around until the age of 35 before assuming the office.

Clay led a busy life in his thirties, fighting duels, helping draw up the treaty of Ghent and serving as speaker of the house of representatives. In 1824 he was a candidate for president, and when the election got into the house of representatives, he helped elect John Quincy Adams, thus winning the undying hate of Andrew Jackson, who was the most fluent and successful hater of those times. This made Clay's life a burden to him, and he frequently resented the position.

From 1824 to 1850 Clay was so big a man that he led to settle every national quarrel. Those were impatient and warlike days, and a dozen times the country showed signs of parting in the middle during the deadlock in congress. On each occasion Clay was called on to arrange a compromise, and he always succeeded, not only in patching up peace, but in winning a lot of permanent enemies. Now and then he would run for president, at which times these enemies would band together and hold parades which were hours in passing a given point. He died in 1852, a disappointed man, after having postponed the Civil war for 30 years.

Clay's fate would probably have been different if he had not compromised so much. He was always ready to load up a horse pistol and fight a political opponent, but he could not bear to see his country quarrel, and he got what peace-makers usually get.

HERE'S THE DUSTLESS HOUSE

From the Minneapolis Journal.

Colonel Northcott of Luray, Va., has built his house over one of the big limestone caverns and run a pipe down into the perfectly pure air of the cave. An electric fan sucks this air into the house and blows it out. The air in the house may be changed every four minutes. Germ sharps have exposed cultures in the house but cannot find a germ. It is impossible to get dirt enough to start a library and what school books mean without dust on them. The charm would be gone.

Edison's Son Has Experimental Mishap.

Theodore Edison, 14-year-old son of the electrical wizard, who sustained a number of minor injuries when he was attempting to perfect a floating bomb in his little laboratory. His noted father then told of a similar accident occurring when he was experimenting in the laboratory that even had fitted out in a baggage car while a train newsho. Mrs. Edison has issued an ultimatum that Theodore will experiment hereafter only under his father's direct supervision.

HARDY'S

16 N. T'ojon

IN THE EARLY DAYS

THIRTY YEARS AGO TODAY TWENTY YEARS AGO TODAY

April 12, 1883.
Judge Goddard, who had been acting for Judge Harrison in the district court here, returned to his home in Leadville.

Judge Harrison had gone to hold court in Fairplay.

Bacon & Carr had ordered a handsome new bus to use in transferring passengers to and from the Antlers. The first hotel of this name was being furnished and was to be opened soon.

R. R. Cable, vice president of the Rock Island railroad, arrived in the city with his family to spend the summer.

There was still no word from A. E. Garrison, who had disappeared from his home in Denver. It was ascertained that he had not been at his mining property at Thomasville.

The college house presented a silver cup to the son of O. H. Shoup, the first child born to a member of the company.

THE HASKIN LETTER

THE MODERN WOMAN

XVIII. WOMEN IN EDUCATION

By FREDERIC J. HASKIN.

Since every human advance has been brought about through education, the great advance made by women during the past century must be credited to the increased intelligence of the world. Women themselves, although the greatest beneficiaries, have aided not only in the work of increasing their own intelligence, but have played a large part in the development of an educational standard which has added to the general wisdom of the entire world as well. In this way, while the modern woman is doing important work in the world, education, her work results from the fact that the world has come to recognize the economic value of providing for a broader feminine education than was considered needful in former generations. The countries in which women's education has reached the highest level are those which have achieved the greatest general prosperity and importance.

At the beginning of the last century, colleges for women were practically unknown. Mrs. John Adams wrote truthfully when she said: "Female education in the best families goes no farther than writing and arithmetic, and in some rare instances, music and dancing." With the opening of more advanced courses came a great rush of women eager to improve themselves without taking into consideration the best means by which this improvement could be brought about. Until within the last decade or two, the women, especially in this country, were so intent upon securing for themselves the same educational privileges awarded men, that they did not stop to consider that many of these women, in their effort to prove that their mental ability rendered them capable to pursue any studies taken by men, women frequently lost sight of the fact that they were expending energy which could have been more profitably applied in other directions. The women desiring advanced education either entered colleges as co-eds in the courses of study which were planned by men for men, or they went to women's colleges, the courses of which were modeled as nearly as possible after those of men.

A radical change in the tendency of higher education and for all the education of women, is becoming markedly noticeable within the present generation. The number of women who have wasted hours from men in their own colleges has been sufficient to demonstrate that the feminine intellect is quite equal to that of the masculine. Therefore, I have become an economic necessity that women have courses of education planned for their special needs, just as the original college course is planned to fit the average man for his future work. Dr. Clayton, United States commissioner of education, in an address recently made before an organization of college women, urged upon them as their specific duty the work of popularizing a course of feminine education that would be helpful to the average woman in fitting her for her future life work. He reminded them that it is always the women, never the men, who are regarded as co-eds in colleges admitting both sexes and urged that, instead of endeavoring to copy masculine achievement, the women should bend their energies toward the development of a course of education which shall be distinctly feminine in its scope.

In their desire to prove their intellectual equality, and in proving this women have accomplished a distinctly creditable attainment, a few women have seemed to lose sight of the great feminine obligation and responsibility which never can come to men, the production and care of the children of the world. Modern education is emphasizing the education of every girl, and modern educators are working to increase its general recognition. Mrs. Ella Flagg Young, superintendent of Chicago schools, contends that even in the elementary schools a distinction should be made between the education of girls and boys because so large a proportion of the pupils never reach the higher schools. Consequently, even in

the lower grades of that city, the girls are being taught some of the fundamental principles of home building. This will not lessen their aptitude for any calling which they may adopt, but it will prevent their going into their own homes, at some period, in their lives with absolutely no preparation for the duties of wifehood and motherhood. It also will serve to give to the girl of foreign birth at least the beginning of the requirements of the modern home which differ greatly from those of her own land, and, therefore, would come outside of the range of any domestic instruction her mother might give. In New York the "Little Mothers' school" has become a recognized part of the educational system of the city and the special education for girls begun there can be continued through the college year if so desired.

Can Substitute Courses.

The rating of a college woman for the course in which she desires to qualify will not be discredited because she substitutes a course in food values for Greek verbs or child hygiene for calculus, unless she is specializing in a line of work in which these two subjects are essential. Now it is possible for a woman to take a degree as Doctor of Philosophy by research work upon some subject which may be of practical value in the development of her home life. For instance, Dr. Edna Day, a member of the faculty of the University of Wisconsin, achieved her doctorate from the University of Chicago with an investigation into "The Effect of Cooking Upon the Digestibility of Starch." Other women recently have taken doctor's degrees by research work upon such subjects as "A Precise Method of Roasting Beef," "Dietic Cuits," "Pure Food Laws," "The Possibilities and Economic Value of Cooperative Housekeeping," and others similarly practical in their scope. Modern educators have come to realize that quite as high intellectual development is required to conduct research upon these subjects as "The Religious Habits of the Phoenicians," or "The Evolution of Government Among the Ancient Cave Dwellers." The modern woman has not risen as yet above the old existing standards but she is advancing each year.

The complaint was made regarding the earlier standards of education of women that they paid no attention to her physical development and that no exercise was introduced. Then evolved a system of athletics in which many girls attempted to do the same athletic work as their brothers. It is now developing that this exercise may be wrongly directed and involve a physical strain which frequently is more harmful than no exercise at all. The physical education of a woman must differ essentially from that given to men. Boat racing, basketball, lifting, running and other work must be undertaken only in proportion to the physical strength of the girl and without reference to that which is not accomplished by her brother in his gymnasium. In most of the larger institutions the desirability of having the physical education of girls under the direction of a qualified woman physician is admitted.

Half Million Teachers.

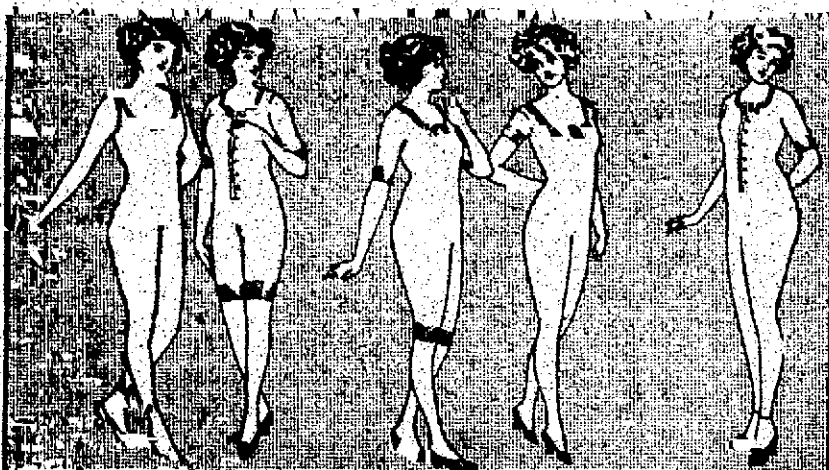

More than half a million women teachers are employed in the public schools of the country, which is about four times the number of men teachers. In the private school as well as in the higher institutions, women teachers also fill thousands of positions, although the preponderance of women over men is greatest in the elementary schools. Since many of the children never have anything more than a common school education, it is safe to say that fully half of the men have received their entire education from women. Their ideals of manhood, honor, patriotism and morality, as well as their knowledge of the "Three R's," must, therefore, be the result of women's work in education. With all their admitted defects, the American public schools are doing a work so beneficial in establishing the citizenship of the future that women

(Continued on Page Twelve)

Hibbard & Co

We Want You to See Our New Underwear. This Is Our Invitation

Come in and look we leave the buying to your good judgment now or later as you choose. We certainly have fine underwear and excellent values and just want you to see it. A few of our lines:

WOMEN'S UNION SUITS

A comprehensive showing of the popular fine stitch suits for summer wear; cotton, lisle or silk and lisle in tight knee or umbrella styles. 29c, 39c, 50c, 59c, 75c, 85c and \$1 a garment.

Nu-Shape union suits; this lisle tuck stitch suit is one of our best wearing garments; low neck, sleeveless, tight knee or lace trimmed umbrella styles. Regular sizes 50c and 75c. Extra sizes 75c.

"Richelieu" our great selling union suits the summer weight in this most popular suit is exceptionally adapted to the climate of Colorado. Richelieu is the only fine stitch underwear made without seams in the side, yet knit to fit. A complete line of styles in high neck, Dutch neck, low neck, sleeveless, long or elbow sleeves, ankle or knee lengths. Richelieu suits are \$1.25 to \$1.65.

WOMEN'S SUMMER VESTS

Women's low neck vests for summer wear at 10c to 50c. Made of cotton, lisle and silk lisle, in fine weave or swiss ribbed gauze to medium weights; wing or elbow sleeve and sleeveless styles.

Richelieu vests perfect fitting, seamless style, fine weave at 50c. Also pants and tights to match at 50c.

CHILDREN'S UNDERGARMENTS

Union suits spring weights in fine weaves for children high neck, long sleeve, ankle length style, at 50c. Black bloomers and pants fine stitch, elastic ribbed of cotton. Bloomers with elastic in waist and knees, 35c; pants with French band or tight tops, in ankle length, at 29c.

INFANTS' VANTA VESTS

The only pinless, buttonless garment for infants perfect fitting in every way. Made of the very finest merino, Australian wool and silk and wool yarns. Let us show you the Vantas and tell you about them. 35c to \$1.

Women's Gauze Silk Lisle Stockings 25c

This exceptionally good wearing silk lisle hose comes in black, white or tan; doubled garter hem tops, high spliced heels and six-thread toes. A good value at 25c a pair.

Women's Silk Lisle Stockings for 37c

A good 50c fine gauge silk lisle stocking, with high spliced heels, doubled soles and reinforced toes, also double garter hem tops special Saturday, 37c a pair.

Ribbons You Want for Millinery and Hair Bows

So many new ones have been arriving that we want you to see them. They are the popular kinds and just the newest there are. A specially good value.

Plain color taffeta ribbon, 4 1/2 inches wide, with self stripe and dot edges pink, blue, red, mauve, brown, navy and white, at 25c a yard.

A Big Showing of Pretty New Pins

Cloisonne enamel bar pins and waist pins, beautiful new designs, in conventional, floral and birds. Bar pins, 25c each; waist pins, 25c a pair.

Carved gold bar pins and friendship circle pins, with safety catches, only 50c. Pretty new designs, carved in gold. The safety catch is a very unusual feature for pins selling below \$1. Other new things, too, you will enjoy seeing.

Woman's Bible study class, Wednesday at 2:30 p. m. Junior league, Wednesday at 3:30 p. m.

HELPFUL WORDS

From a Colorado Springs Citizen.

Is your back lame and painful? Does it ache especially after exertion? Is there a soreness in the kidney region? These symptoms suggest weak kidneys. If so there is danger in delay. Weak kidneys get fast weaker. Give your trouble prompt attention. Doan's Kidney Pills are for weak kidneys. Your neighbors use and recommend them. Read this Colorado Springs testimony.

W. A. Impson, S. Institute St., Colorado Springs, says: "I am in good health and don't suffer from kidney trouble as I did some years ago before I used Doan's Kidney Pills. Whenever my back gets weak, I can depend on Doan's Kidney Pills to stop the trouble. I gladly confirm the endorsement I gave them about three years ago."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

WHEN 13.75 WILL BUY A SUIT

that is a good value at \$30.00 it is a good bargain for you. Else these specially low-priced suits today.

Robbins

RECOMMENDED FOR A GOOD REASON

Because they cured him of kidney and bladder trouble. C. H. Grant, 230 Waverly St., Fort. Ill. tells the result of his taking Foley Kidney Pills. "Backache" and congested kidneys made me suffer intense pains. Was always tired, and floating specks bothered me. Took Foley Kidney Pills and saw big improvement after third day. I kept on until entirely freed of all trouble and suffering. That's why I recommend Foley Kidney Pills. They cured me. They are tonic in action, quick in results." Robinson Drug Co.

FEARS FOR SISTER'S SAFETY

Mrs. A. P. Robinson of Portland, Mo., has written to the police asking for information as to the whereabouts of her sister, Amelia C. Hoover, whom she fears may have met with foul play. "She says that her sister conducted the Chillicothe lodging house here last summer, but later went to Oklahoma. Since October 18, when she wrote, Mrs. Robinson that she was about to return here, nothing has been heard from her."

PEARSONS LITERARY SOCIETY

Of Colorado College presents its 3d annual Elizabethan play

"GAMMER GURTON'S NEEDLE"

AT

PERKINS HALL TONIGHT 8 O'CLOCK

ADMISSION 50c

PEARSONS SOCIETY TO GIVE ITS ANNUAL PLAY

The third annual play of the Pearsons Literary society of Colorado college will be given at 8 o'clock this evening in Perkins hall, the piece chosen being "Gammer Gurton's Needle," a re-Shakespearean play. All the parts taken by the men of the Pearsons society. The cast this year is smaller than those of the plays given before. The two plays which the society has given in previous years were "The Sign Woman" and "Pillar Bacon and Jar Bungay." In the staging of the Pearsons plays everything is carried through as near as possible in the manner of the Elizabethan presentations. No scenery whatever was used in the Elizabethan theaters, and the only scenery used in the college production is what is necessary to make the stage in Perkins hall look like one of these theaters. There is no curtain between acts or scenes.

Many Problems Come Up Each Month

Before the Associated Charities

Following is the report of the agent to the executive committee of the Associated Charities for the month of March:

Charities Report.

March saw no diminution in the work of the Associated Charities. Sixty-four families were rendered assistance of various kinds. Thirty-six homeless men applied to us for meals, lodging and clothing.

The work with the families, as usual, made the heaviest demands upon our energies and our finances. In 14 of the families, the problems were of such a serious nature that they were referred to our splendid case committee, which meets weekly for the purpose of careful consideration of all such families and the formulation of such plans as will restore them to a normal condition.

Only 17 out of the 64 families had been in the city less than a year. This means that 47 of the families whom we assisted were what might be termed "country cases."

Whenever the family needs are such that they can be satisfied merely by material relief, the problem is referred to the county for aid. If they have lived in the city for more than a year, but in the great majority of cases, whether the families are old residents or newcomers, the problem is referred to the county for aid.

It is for this reason that the Associated Charities must always do a large part of the relief work that instinctively belongs to the county.

The Haskin Letter

THE MODERN WOMAN
XVIII—WOMEN IN EDUCATION.
By FREDERIC J. HASKIN.

(Continued From Page Eight.)

well may take pride in the work they have wrought.

The work of women in education is not confined to teaching. It is extending each year more broadly into the fields of superintendence and direction. In most large American cities women are filling places as members of the board of education and, in many rural districts, the woman school director is credited with bringing never and better equipment into the schools for which she is responsible. In some states, the office of both state and county superintendent of schools is occupied more frequently by a woman than a man. Often these women originate new ideas which men superintendents are glad to copy. Mrs. Josephine Preston, state superintendent of schools of Washington, who formerly was a county superintendent, is credited with being the first superintendent to develop the plan of cottage homes for rural teachers. This is said to solve the housing problem for women teachers in rural localities which frequently has rendered it difficult to secure the class of instructors desired for country schools.

Women Superintendents in Wyoming.

The state of Wyoming has women as superintendents of the schools of 26 out of its 23 counties, as well as a woman state superintendent. In Colorado, for years, the state superintendent always has been a woman. While the western states are ahead of the eastern ones in awarding women the office of superintendent, it has been open to them in most states for years. One of the first women to hold the office of county superintendent in an eastern state was Miss Anna Buckbee of Potter county, Pennsylvania, who for quite a long time rode over long, lonesome roads, driving her own horse and buggy when the lumbering stage was not available. Her own interest in that country brought to the attention of many foreign workers who lived in camps in some of the forests through which the little superintendent had to pass. She claimed many adventures which sounded as though they might have occurred in the great undeveloped west, but her influence in the school organization of her country made even the most conservative men do homage to her ability. There are now 486 women county superintendents distributed among 26 states.

The success of Mrs. Ella Young Flagg, who is serving her third term as superintendent of the public schools of Chicago, demonstrates her ability to handle the complex problems which come up in the direction of the many classes of instruction which are required in a great city, the population of which includes almost every known nationality. Mrs. Young has 12 assistant superintendents under her direction, four of whom are women.

Loans Made.

A number of loans have been made by the Associated Charities during the month. The number of applications for loans is in excess of what our means will enable us to make, due to the heavy demands for relief from the needy people. Undoubtedly, a long-felt want in our community, but since there is no such organization in our community, the Associated Charities would be greatly helped in its work among the self-reliant members of the community if a small fund were available for this purpose. At the present time, when such a loan is made, it immediately withdraws money from our general fund and is greatly needed to meet our other expenses.

One woman who was lent money several years ago, which aided her over a serious crisis, is repaying her loan at the rate of \$10 a week. Other small loans were made and promptly repaid during the month. One woman, who was assisted with coal in 1909, came into our office during the month and paid us for the coal, saying that she was in a position to do so. She knew that the money could be well expended for fuel for some other needy family.

Difficult Problems.

Two families, wholly dependent, have come into our community, one having been "shipped" from point to point by

The Lord bless thee and keep thee; the Lord make his face to shine upon thee and be gracious unto thee; the Lord lift up his countenance upon thee and give thee peace.
Psalm—Gloria.
Anthem—"Behold, Now Praise the Lord."
Prayer.
Hymn No. 244—"The King of Love My Shepherd Is."
Lay sermon—By Prof. E. C. Hills.
Prayer and Benediction.
Recessional No. 302—"The Morning Light Is Breaking."
Organ Postlude.

Choice seats at moderate prices for Bishopric recital; nearly all balcony seats at 75c and \$1. Seats now at Hillbards.

GOV. HUNT VETOES BILL TO REVISE PENAL CODE

PHOENIX, Ariz., April 11.—Gov. George W. P. Hunt vetoed today the revised penal code of Arizona, as passed by the legislature after several weeks' work. This action was taken because it virtually removed the pardoning power of the governor.

HEED THE COUGH THAT HANGS ON

The seeds of consumption may be in lurk, and a cough that hangs on weakens your system, and lowers your vital resistance to disease. Take Foley's Honey and Tar Compound. It stops the cough, heals the inflamed membranes, and strengthens the lungs. E. D. Roanoke, Baltimore, Ga., says: "La Grippe left me with a deep-seated, hacking and painful cough, from which I could get no relief until I took Foley's Honey and Tar Compound. It completely cured me. Refuse substitutes. Robinson Drug Co., Adv."

RECEPTION TO RETIRING PRINCIPAL OF COLLEGE

More than 200 students and graduates of the Central Business college gave a farewell reception last night at the college of F. C. Onstott, who has retired from the school after several years' service. As a token of appreciation of his services and the esteem in which he is held by students, he was presented with a handsome gold watch. He is succeeded by Professor Nutter as principal.

ELECTION NOTICE

In pursuance of the provisions of the Charter of the City of Colorado Springs, Colorado, Notice is hereby given that a Second General Municipal Election by the qualified electors residing within the corporate limits of the City of Colorado Springs, Colorado, is hereby called to be held in said city on

Tuesday, the 15th Day of April,

A. D. 1913

Between the hours of 7 o'clock A. M. and 7 o'clock P. M. of said day, for the election of the following named officers:

A MAYOR and TWO COUNCILMEN

Whose term of office shall commence at 10 o'clock A. M. of the first secular day in May, 1913, following their election and shall end at 10 o'clock A. M. on the third Tuesday in April, 1917, or until their successors are elected and qualified.

The list of candidates whose names are entitled to appear upon the ballot for the office of Mayor is as follows, to-wit:

CHARLES L. M'KESSON CHARLES E. THOMAS

The list of candidates whose names are entitled to appear upon the ballot for the office of Councilmen is as follows to-wit:

**JENNY SHELLEY BOYD CHARLES M. HOBBS
JAMES J. EUBANK D. G. JOHNSON**

In addition to the election of a Mayor and two Councilmen, there will be submitted to the vote of the qualified electors voting at said second general municipal election, in accordance with the provisions of the City Charter and the Ordinance of the City of Colorado Springs, the following Initiated Ordinance and Question, to-wit:

The question of adopting or rejecting the proposition of vacating that portion of CHEYENNE AVENUE between Nevada Avenue and Weber Street, in the City of Colorado Springs, El Paso County, State of Colorado.

Done by order of the City Council.
Dated at Colorado Springs, Colorado, April 11th, 1913.

CHAS. CHAPMAN,
(Seal) Clerk of the City of Colorado Springs, Colorado
